

# bE-CARE

Keep you safe and happy..

SRS issued on: 13.11.2022

Created by:  
Group CSII

# E-Channeling & Healthcare System SRS

For second year group project  
University of Colombo School of Computing

**Project Title:** - “bE-CARE – E-channeling and Healthcare System”

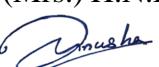

**Group Number:** - CS11

**Group Members:** -

Name	Index Number	Registration Number	Email Address
Geenath W.T.	20000618	2020/CS/061	2020cs061@stu.ucsc.cmb.ac.lk
Lakshan L.H.T.	20001012	2020/CS/101	2020cs101@stu.ucsc.cmb.ac.lk
Umayanga N.G.J.	20001894	2020/CS/189	2020cs189@stu.ucsc.cmb.ac.lk
Wijesinghe K.G.D.M.	20002173	2020/CS/217	2020cs217@stu.ucsc.cmb.ac.lk

**Project Supervisors:** -

Name of the Supervisor: - Dr. (Mrs.) H.N.D. Thilini

Signature of the Supervisor: - 

Date: -

Name of the Co-Supervisor: - Ms. L.A.S.M. Gunathilaka

Signature of the Co-Supervisor: - 

Date: - 13/11/2022

# 1. Introduction

## 1.1. Domain Description

Healthcare industry is vastly benefitted from the development of Information technology in the present digital world. In Sri Lanka also the use of information technology in healthcare sector is quite abundant. But still majority of people in Sri Lanka are less likely to use them due to various reasons such as digital divide. And also the currently existing systems such as e-channeling websites only focused on channeling doctors via hospitals. According to our researches, there are less e-channeling methods for private medical centers. And also if we take the healthcare sector in Sri Lanka, Ayurveda medicine methods currently have a huge impact. There is a decent number of qualified doctors with Bachelor of Ayurvedic Medicine and Surgery (BAMS) qualification. But the electronic channeling methods to get their services are almost none in Sri Lanka. So the need of a system arises which everyone in Sri Lanka can easily use to channel both MBBS and BAMS qualified doctors. So our group suggests a web application not only to fulfil the above need but to address the solution for another massive problem the people of Sri Lanka facing mostly due to the ongoing condition of the country. The economic crisis Sri Lanka currently facing has lead the people to suffer with stress and mental instability. The majority which suffers from this condition are young students who are forced to have their education through online manners but unable to even do that properly due to the ongoing power cuts. The future of Sri Lanka would be in danger if the young students lost their focus on studies with these conditions so the need of counsellors and psychological therapists arises to keep them mentally stabled. Our system provides a solution to this by allowing users to channel counsellors and psychological therapists through this website. Anyone in Sri Lanka can access our website to find a doctor or a counsellor near them and make an appointment for channeling. In addition to that, one can use this website to take diet plans from a nutritionist or taking meditation instructions from a meditation instructor according their needs. And also we are looking forward to provide some other facilities as well. One is an e-pharmacy service. This service is not only for ordering western pharmaceutical products but also Ayurvedic medicines. There is no e-pharmacy service for Ayurvedic medicines like this yet. As a result, people are less likely to use local medical products. So we decided to add this service also through our web application so it will be useful specially in a time like this where the country is having a lack of imported medicines. Users can find nearest pharmacies/*Osu Sals* and order the medicines they need given the prescription to the relevant pharmacy/*Osu Sals* and have medicines delivered to their house. Other one is users can register to certain sessions organized by the counsellors, nutritionists and meditation instructors in the system. We hope to minimize all the above mentioned problems as much as we can with this application.

## 1.2. Project Goals

The ultimate goal of our project is to raise a healthy community considering both physical and mental wellbeing by providing them with a quality service enhancing the healthcare sector. We are looking forward to achieve this goal also with a profitable manner. The product of the project is a user friendly web application with a simple interface so anyone can easily use it to successfully fulfill their day to day healthcare needs. In addition to our primary goal, following secondary goals (objectives) are to be achieved by our project as well.

- Providing an opportunity for doctors around the country who wishes to earn an extra income by private channeling methods.

- Most importantly, giving the opportunity for Ayurvedic doctors in Sri Lanka to use the e-channeling method.
- Giving the opportunity for nutritionists to use online methods to provide their services.
- Helps the psychological therapists and counsellors to keep a mentally healthy community.
- Giving an opportunity to pharmacists to extend their business through online methods and also facilitating their customers with online buying and delivering system.
- Giving an opportunity to *Osu Sals* which sells local medical products to use online methods to extend their business

## 1.3 Project Scope

### 1.3.1 In-Scope

The following functionalities and components will be delivered by our system.

- Web application
- Creating and managing user profiles
- User authentication
- Database Management System
- Tracking all the details about service history and the services yet to be done
- E-pharmacy system
- Online channeling system
- Online registration system
- Online payment system
- Reviewing system for all users

### 1.3.2 Out-Scope

The following functionalities and components will not be delivered by our system.

- Mobile application
- Online meetings for services
- Delivering medicine

### 1.3.3 Actors

There will be 8 actors in our system.

- Patient
- Doctor
- Counsellor
- Nutritionist
- Meditation Instructor
- Pharmacist

- Visitor (Guest User)
- Admin

## 1.4 Constraints and Assumptions

### Project Constraints and Assumptions

- No frameworks allowed for development
- The project should be completed within one academic year
- The workload should be distributed vertically among 4 members; All the members should have the knowledge about all the components in the system

### System Constraints and Assumptions

- All the end users must have an internet connection and the basic knowledge to operate a web application
- When it comes to the registration for meditation instructions and sessions, only the registration can be done using the system. Conducting them would not be a part of the system
- Pharmacies should have a delivery service method within them as a required qualification when registering with the system

## 2. Project Feasibility

### 2.1 Technical Feasibility

#### 2.1.1 Technology Requirements

Considering the knowledge and experience of our team members regarding the technologies we are going to use in this project, we have a basic understanding in work with HTML, JavaScript, PHP and CSS but since we need a lot more than basic knowledge to successfully build this system, we are looking forward to learn with sharing while we doing the project to upgrade our knowledge and experience. We are going to implement the database management system using MySQL and the website using PHP. In addition, the following tools and technologies will be used to acquire the relevant tasks mentioned.

- Development and coding: - Visual Studio Code
- Creating diagrams: - Draw.io
- Documentation: – Microsoft Word, Google Docs
- Versions management: - Github
- Project management: - Trello
- Communication: - Zoom and Whatsapp

#### 2.1.2 Hardware Requirements

Every member has either a desktop or a laptop personal computer at home with a reliable internet connection with them. And also they have access to all the technologies mentioned above as well.

Since all the required resources are available with us, we consider our project technically feasible.

## 2.2 Economic Feasibility

### Costs Involved in completing the project

Due to the prevailing bad situation in the country, WhatsApp used for communication. Zoom platform will be used for meetings with the supervisors and team members.

The cost involved for zoom meetings decreased because the team members have Zoom Internet Packages provided by Internet Service Providers.

Since all of the used programs are open-source and free to download, there will be no associated software costs. Since all documentation is digital, the associated paper costs may also be kept to a minimum.

We can conclude that this project is economically feasible by considering the advantages of completing it as well as the fact that there are no significant costs.

## Cost structure for the proposed web application

### Onetime costs

#### 1. Hosting Cost

There is a hosting cost because we need to maintain the availability of system thus needed a good reliable global hosting service.

#### 2. Hardware and Software Cost

The system is being developed using group members' personal computers and laptops. There is no extra Hardware cost. To connect to the internet networking devices required and they are already available to all members,

### Operational costs

#### 1. Utility Costs

Since this project will be developed through a year, utility costs like power will be significant because, given the country's current situation, all activities are done online.

Since team meetings, talks, development, and learning all require a steady internet connection with a large bandwidth, internet connection costs for ISP need to consider.

#### 2. Cost for the Domain

The web application's domain name will require an annual purchase. The cost of the domain name will be roughly LKR 5000 per year.

We would be able to bear all the costs mentioned above thus we consider our project economically feasible.

## 2.3 Operational feasibility

The service providers in the system has the basic IT knowledge to operate the system. And also we would be providing a help feature for all users explaining the operations in the system in a step by step manner. The UI would be user friendly so anyone can easily operate the system. Admin of the system has all the knowledge to manage and operate the system and other technical facilities (A computer and an internet connection) for accessing the system. Considering these we consider our project operationally feasible.

## 2.4 Legal and Ethical Feasibility

This is an original idea of our team and there are no copyright issues and we will not violate any data protection laws or laws in Sri Lanka.

After registering as a registered user their data will be stored in our database and our system will be kept securely. All types of registered users' data will be kept safely. Such as login details of registered users, profile details of service providers. The system will be well-secured to protect the all service providers' personal information. Users' feedback will be kept confidential. There will be no sharing of user information with third parties.

All transactions are made by a secured payment method.

Considering all these, we consider our project legally and ethically feasible

## 2.5 Social Feasibility

To make this web application a reality it should be socially feasibly so the everyone using this system get the maximum advantage out of it. Only then our web application would be accepted by the society. To make sure our project is socially feasible, we created a google form to get the ideas from each users (doctors, psychological counselors, nutritionists, pharmacists, meditation instructors and patients) in the system via a questionnaire.

For questions and responses we received from users, refer Annex 01.

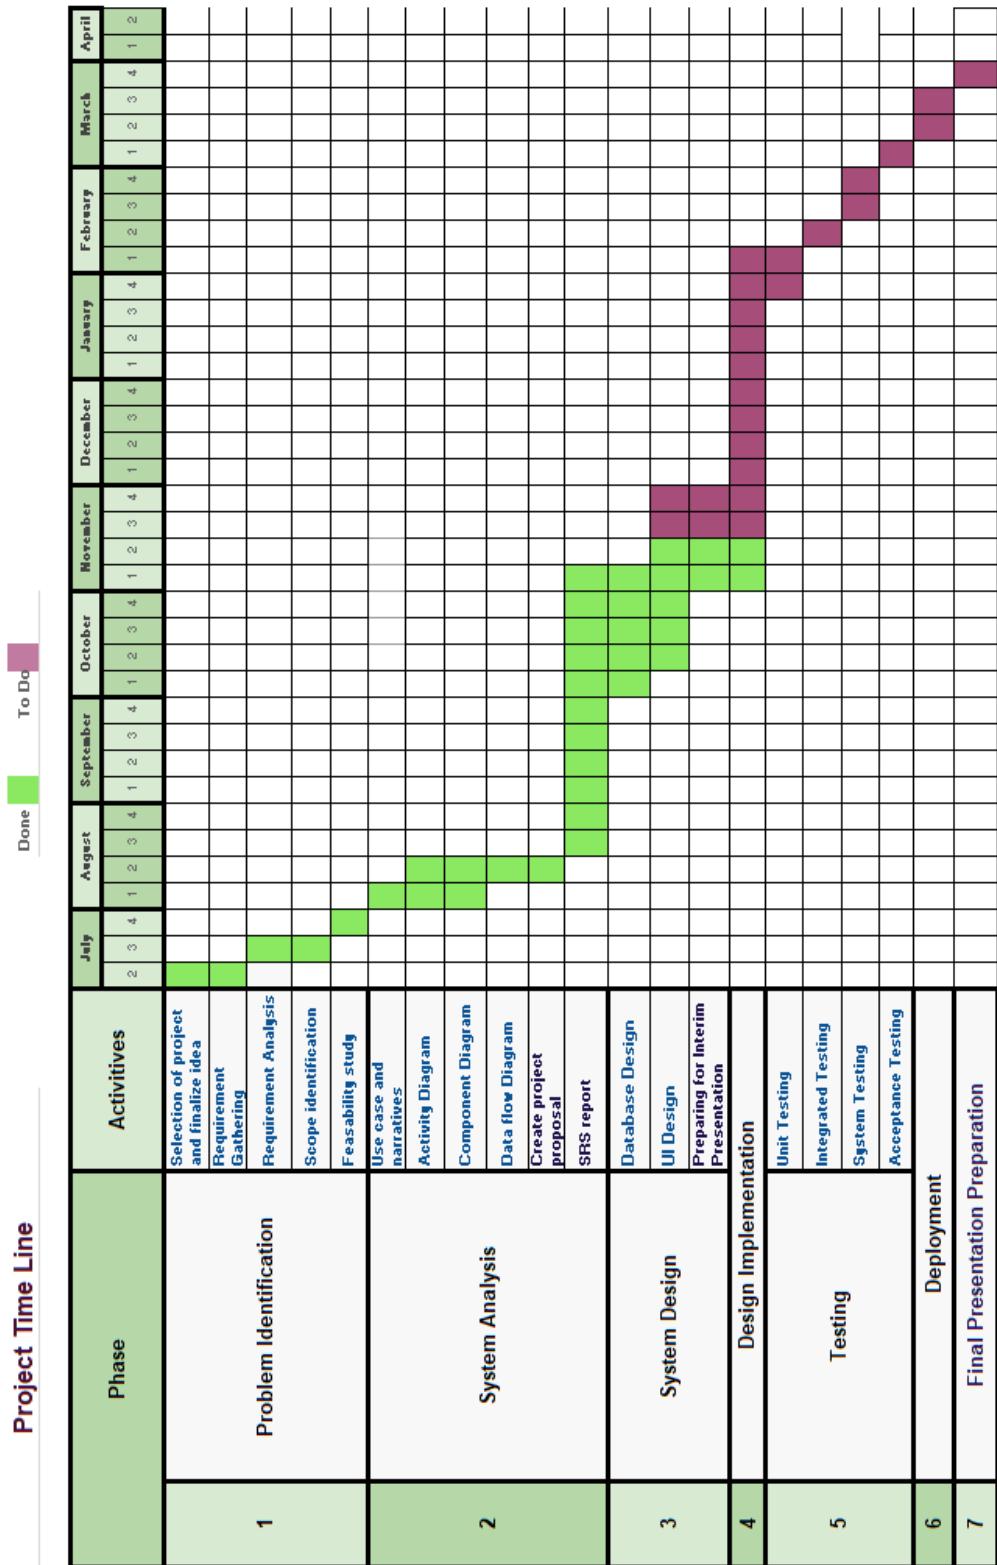

Considering the responses, we can derive following conclusions

- Majority of service providing actors think the web application would be very useful to provide their services.
- Majority of people expecting the services think the web application would be very useful to get services.
- Majority is less likely to use Ayurvedic medical treatments and Ayurvedic medical products but majority among them thinks it is good to have e-channeling facility for Ayurvedic medical methods and e-pharmacy facility for Ayurvedic medical products. The majority of reasons they have provided for not using Ayurvedic methods can be solved using this web application.

Considering all these, we consider our project socially feasible.

## 2.6 Schedule Feasibility

We are looking forward to carry out the project during this academic year successfully according to the project timeline. We would be doing the relevant tasks with a proper distribution among the four members in our group thus we consider the project is feasible with scheduling.

## 3. Requirements

### 3.1 Actors

There will be 8 actors in our system.

- Patient
- Doctor
- Counsellor
- Nutritionist
- Meditation Instructor
- Pharmacist
- Admin
- Visitor (Guest User)

### 3.2 Functional Requirements

#### 3.2.1 Actors and their Functionality

##### Patient

- Patient can register with the system.
- Patient can search for services.
- Patient can view doctor/counselor/nutritionist/pharmacy/meditation instructor details.
- Patient can channel a doctor/counselor they want.
- Patient can use e-pharmacy service. (he/she needs to upload the prescription to the pharmacy they prefer)
- Patient can make payments.
- Patient can get the contact details of doctors, psychological counselors, nutritionists, pharmacies and meditation instructors.
- Patient can customize his/her profile and also change his/her profile password.
- Patient can request for diet plans from a nutritionist.
- Patient can receive diet plans.
- Patient can register for sessions published through the system.
- Patient can register for meditation instructions.
- Patient can view his/her appointments.
- Patient can view his/her channeling history/purchasing history he/she has done through the system.
- Patient can give a review about the services provided by the website.
- Patient can report a complaint about an issue.

##### Doctor (MBBS/BAMS)

- Doctor can join with web application give his/her qualification. (After checking correctness of the qualifications, Admin create account for the doctor)
- Doctor can change his/her availability time slots.

- Doctor can receive payments.
- Doctor can customize his/her profile and also change his/her profile password.
- Doctor can view details of patients who channeled the doctor.
- Doctor can view his/her channeling appointments.
- Doctor can view his/her channel history.
- Doctor can report a complaint about an issue.

## **Nutritionist**

- Nutritionist can log in with this web application to give his/her qualification. (After checking the correctness of the qualifications, Admin create account for the nutritionist.)
- Nutritionist can receive diet plan requests.
- Nutritionist can issue online diet plans.
- Nutritionist can announce sessions through the website.
- Nutritionist can receive payments.
- Nutritionist can customize his/her profile and also change his/her profile password.
- Nutritionist can view details of patients who requested diet plans.
- Nutritionist can view his/her issued diet plans history.
- Nutritionist can report a complaint about an issue.

## **Counsellor**

- Counselor can join with web application give his/her qualification. (After checking the correctness of the qualifications, Admin creates an account for the Counselor.)
- Counselor can change his/her availability time slots.
- Counselor can receive payments.
- Counselor can announce sessions through the website.
- Counselor can customize his/her profile and also change his/her profile password.
- Counselor can view details of patients who channeled the counselor.
- Counselor can view his/her counseling appointments.
- Counselor can view his/her counseling history.
- Counselor can report a complaint about an issue.

## **Meditation Instructor**

- Meditation Instructors can join with web application give his/her qualification. (After checking the correctness of the qualifications, Admin creates an account for the meditation instructor.)
- Meditation Instructors can receive payments.
- Meditation Instructors can announce sessions through the website
- Meditation Instructors can customize his/her profile and also change his/her profile password.
- Meditation Instructors can view details of patients who registered with meditation

instructions.

- Meditation Instructors can report a complaint about an issue.

## Pharmacist

- Pharmacist can join with web application give his/her qualification. (After checking correctness of the qualifications, Admin create account for the pharmacist)
- Pharmacist can accept/reject a prescription order.
- Pharmacist can notify the customer with the availability of medicines.
- Pharmacist can receive payments.
- Pharmacist can view selling history.
- Pharmacist can customize his/her pharmacy's profile and also change his/her pharmacy's profile password.
- Pharmacist can report a complaint about an issue.

## Visitor (Guest User)

- Visitor can search the services in the system.
- Visitor can register for the sessions published in the system.
- Visitor can register with the system.

## Admin

- Admin can log into the system.
- Admin can add (register) a new doctor/counselor/nutritionist/pharmacist/meditating instructor to the system.
- Admin can remove an existing doctor/counselor/nutritionist/pharmacist/meditating instructor from the system.
- Admin can view the details about all the above actors.
- Admin can receive payments.
- Admin is responsible for user account management and complaints handling.
- Admin can customize his/her profile and also change his/her profile password.

### 3.3 Quality Attributes (Non Functional Requirements)

#### 3.3.1 Quality Attribute Scenario

##### Performance (Concrete Scenario)

Portion of scenario	Possible values
Source	End user
Stimulus	Arrival stochastic event
Artifact	system
Environment	Normal mode
Response	Process event
Response measure	Less than 5 seconds

Portion of scenario	Possible values
Source	End user
Stimulus	Arrival periodic event
Artifact	System
Environment	Normal mode
Response	Process event
Response measure	Less than 5 seconds

## Usability (Concrete Scenario)

Portion of scenario	Possible Value
Source	End User
Stimulus	Learn system features
Artifact	System
Environment	Runtime
Response	Interface is familiar to user; Interface is usable in an unfamiliar context
Response Measure	User satisfaction

## Security (Concrete Scenario)

Portion of scenario	Possible Value
Source	External individual
Stimulus	Tries to modify information
Artifact	Database system
Environment	Normal operation
Response	Transactions are carried out with protection from unauthorized access.  Data is not being manipulated without authorization.
Response Measure	System would not be compromised if a particular data value is compromised

## Modifiability (Concrete Scenario)

Portion of scenario	Possible Value
Source	Developer
Stimulus	Add a new functionality/Modify an existing functionality
Artifact	Source Code
Environment	Designing
Response	Make the changes
Response Measure	No new defects detected after changes

### 3.3.2 Methods to Achieve Quality Attributes

#### Availability

- Hosting the system in a global hosting service with multiple servers and real-time backup facilities so the servers wouldn't go down easily thus making the system available.

#### Performance

- Choosing a good web host.
- Using a minimal UI design to improve performance.

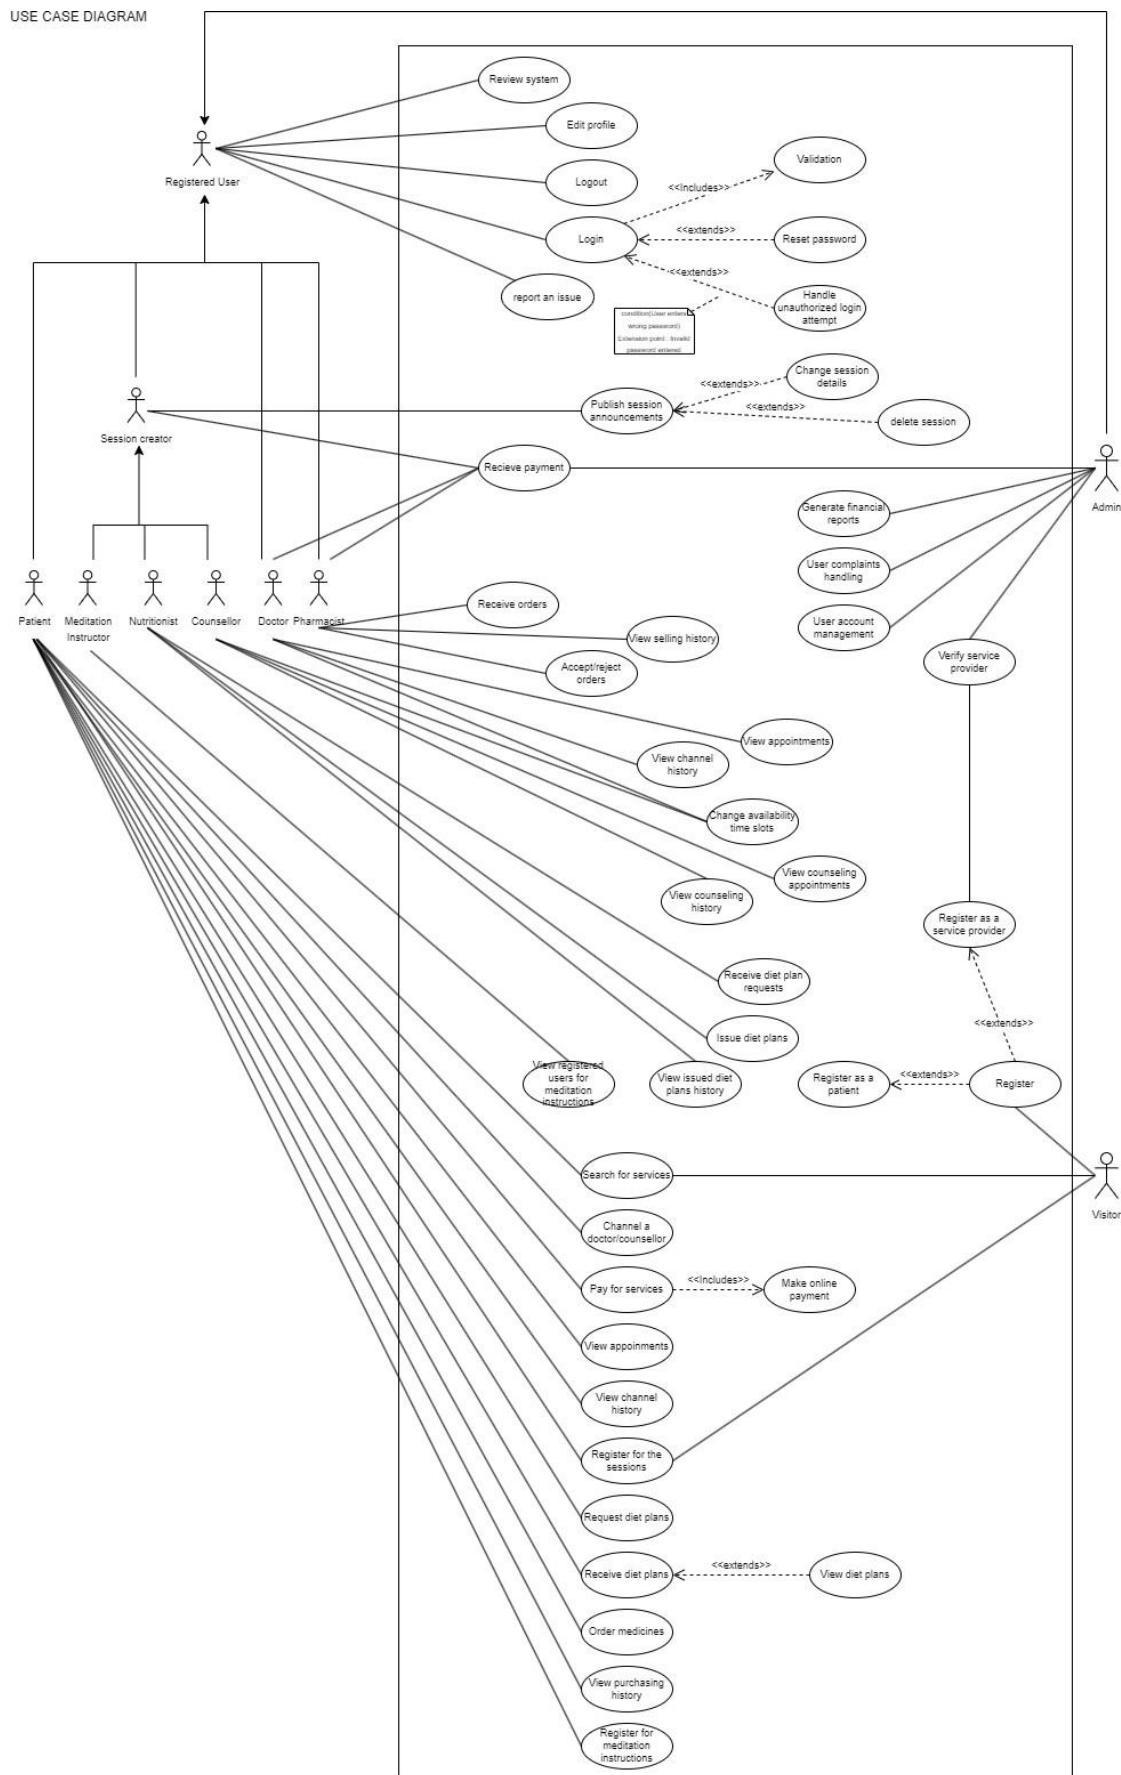

#### Usability

- Providing a user friendly UI for all users.
- Providing a "help" feature to users while using the system features.
- Using auto filling feature for filling forms which need previously given information to support system initiative.

#### Security

- Using password-based authentication mechanisms to provide secure login into the system.
- Protecting data from unauthorized access.
- Using a secure method for payments.

## 3.4 Use Case Diagram

### 3.4.1 Use Case Narratives

**Table 1: Use Case Narrative (Login)**

USE CASE NAME	Login
USE CASE ID:	01
Primary Actor	Patient, Admin, Doctor, Counselor, Pharmacist, Meditation Instructors, Nutritionist
Other participating Actors	-
Description	Any type of user may login to the system using their username and password, and they can change password if they forget the password.
Pre-Conditions	Registered as Patient/Admin/Doctor/Counselor/Pharmacist/Meditation Instructors/Nutritionist
Main Flow	<ol style="list-style-type: none"> <li>1. Enter username</li> <li>2. Enter Password</li> <li>3. System checks username and password matches with the database records</li> <li>4. If any record match, load the page</li> </ol>
Post-Conditions	provide access and show successful login
Related Use cases	Reset password

Priority	High
Alternative flows/Exceptions	Wrong password, Forgot password

**Table 2: Use Case Narrative (Reset password)**

USE CASE NAME	Reset password
USE CASE ID:	02
Primary Actor	Patient, Admin, Doctor, Counselor, Pharmacist, Meditation Instructors, Nutritionist
Other participating Actors	-
Description	When the user forgets their login password, reset password is used at the login page to change their password.
Pre-Conditions	Previously registered as a user
Main Flow	<ol style="list-style-type: none"> <li>1. User click the forgotten password</li> <li>2. User asked to enter registered email address</li> <li>4. System verifies that the entered email matches the registered email.</li> <li>5. Email a new password.</li> </ol>
Post-Conditions	User logins with the password given and change it after
Related Use cases	Login
Priority	High
Alternative flows/Exceptions	-

**Table 3: Use Case Narrative (Logout)**

USE CASE NAME	Logout
USE CASE ID:	03
Primary Actor	Patient, Admin, Doctor, Counselor, Pharmacist, Meditation Instructors, Nutritionist
Other participating Actors	-
Description	After using the system, the user can log out to prevent unauthorized access.
Pre-Conditions	Already logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. A logged-in user clicking the logout</li> <li>2. End the session</li> <li>3. Redirect to the login page</li> </ol>
Post-Conditions	Display logged out of the system successfully
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 4: Use Case Narrative (Edit Profile)**

USE CASE NAME	Edit profile
USE CASE ID:	04
Primary Actor	Patient, Admin, Doctor, Counselor, Pharmacist, Meditation Instructors, Nutritionist
Other participating actors	-
Description	<p>Each user has the option to customize their profile according to their needs.</p> <p>Changing the password</p> <p>Changing usernames and profile pictures</p>
Pre-Conditions	Logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. User login to the system</li> <li>2. Go to account settings</li> <li>3. Make changes</li> <li>4. Save Changes</li> </ol>
Post-Conditions	Customized profile
Related Use cases	-
Priority	Low
Alternative flows/Exceptions	Do not save the modifications.

**Table 5: Use Case Narrative (Register)**

USE CASE NAME	Register
USE CASE ID:	05
Primary Actor	Visitor
Other participating Actors	Admin
Description	Visitors can register with the system by making a user account
Pre-Conditions	-
Main Flow	<ol style="list-style-type: none"> <li>1. Visitor visits the site</li> <li>2. Clicks on sign up</li> <li>3. Give the user account type (need a verification from the admins for all the service provider accounts)</li> <li>4. Insert valid details in the given form and create the account</li> </ol>
Post-Conditions	Use the given username and the password to log into the system
Related Use cases	Verify service provider
Priority	High
Alternative flows/Exceptions	Invalid information given/already registered user

**Assumption:** Service providers are Doctor, Counselor, Pharmacist, Meditation Instructors, Nutritionist

**Table 6: Use Case Narrative (Verify service provider)**

USE CASE NAME	Verify service provider
USE CASE ID:	06
Primary Actor	Admin
Other participating Actors	Doctor/Counselor/Pharmacist/Meditation Instructors/Nutritionist
Description	Admin have to verify the service providers before registering them with the system by checking their qualifications
Pre-Conditions	Admin logged into the system Service provider has given qualifications
Main Flow	1. Admin view received details (qualifications) 2. Verify them
Post-Conditions	Login credentials for the service provider is given
Related Use cases	Register
Priority	High
Alternative flows/Exceptions	Invalid information given

**Table 7: Use Case Narrative (Report an issue)**

USE CASE NAME	Report an issue
USE CASE ID:	07
Primary Actor	Patient, Doctor, Counselor, Pharmacist, Meditation Instructors, Nutritionist

Other participating Actors	-
Description	User can report a complaint if an issue with the system happened.
Pre-Conditions	Already logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. User clicks report an issue</li> <li>2. Provide details about the issue</li> <li>3. Submit the issue</li> </ol>
Post-Conditions	The complaint is handled by the admin
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 8: Use Case Narrative (User complaints handling)**

USE CASE NAME	User complaints handling
USE CASE ID:	08
Primary Actor	Admin
Other participating Actors	-
Description	Admin is responsible for managing all the complaints reported by users.
Pre-Conditions	A user reported a complaint

Main Flow	<ol style="list-style-type: none"> <li>1. Admin goes in to the user complaints page</li> <li>2. View complaints</li> <li>3. Take actions regarding them</li> </ol>
Post-Conditions	-
Related Use cases	-
Priority	High
Alternative flows/Exceptions	Ignore the complaint

**Table 9: Use Case Narrative (User account management)**

USE CASE NAME	User account management
USE CASE ID:	09
Primary Actor	Admin
Other participating Actors	-
Description	Admin can manage all the user accounts in the system
Pre-Conditions	Logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. Go to user account management page</li> <li>2. Add a new account/remove an existing account</li> </ol>

Post-Conditions	A new account added/an existing account removed
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 10: Use Case Narrative (Search for services)**

USE CASE NAME	Search for services
USE CASE ID:	10
Primary Actor	Patient
Other participating Actors	Visitors
Description	Patient/Visitor can search services.
Pre-Conditions	-
Main Flow	<ol style="list-style-type: none"> <li>1. Visit the web page</li> <li>2. Search services</li> </ol>
Post-Conditions	-
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 11: Use Case Narrative (Channel a doctor/counsellor)**

USE CASE NAME	Channel a Doctor/Counsellor
USE CASE ID:	11
Primary Actor	Patient
Other participating Actors	-
Description	Patient can channel a doctor or a counsellor they want.
Pre-Conditions	Logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. Visit the doctor or counsellor page</li> <li>2. Select a specific doctor/counsellor</li> <li>3. Channel the doctor/counsellor by making the payment</li> </ol>
Post-Conditions	Receive a notification about the channel details
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 12: Use Case Narrative (Pay for services)**

USE CASE NAME	Pay for services
USE CASE ID:	12
Primary Actor	Patient

Other participating Actors	-
Description	Patient has to make an online payment for the services
Pre-Conditions	Requested a service.
Main Flow	<ol style="list-style-type: none"> <li>1. Patient is asked to make the payment when requesting a service</li> <li>2. Fill the form about the payment</li> <li>3. Make the online payment</li> </ol>
Post-Conditions	-
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 13: Use Case Narrative (View appointments (Patient))**

USE CASE NAME	View appointments (Patient)
USE CASE ID:	13
Primary Actor	Patient
Other participating Actors	-
Description	Patient can view their appointments from both doctors and counsellors.

Pre-Conditions	Logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. Patient clicks on appointments.</li> <li>2. View the appointments.</li> </ol>
Post-Conditions	-
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 14: Use Case Narrative (View channel history (Patient))**

USE CASE NAME	View channel history (Patient)
USE CASE ID:	14
Primary Actor	Patient
Other participating Actors	
Description	Patient can view their channel history from both doctors and counsellors.
Pre-Conditions	Logged into the system

Main Flow	<ol style="list-style-type: none"> <li>1. Patient clicks on channel history</li> <li>2. view channel history</li> </ol>
Post-Conditions	-
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 15: Use Case Narrative (Register for the sessions)**

USE CASE NAME	Register for the sessions
USE CASE ID:	15
Primary Actor	Patient
Other participating Actors	Visitor
Description	Patient or any visitor can register for the meditation/counseling/nutrition sessions published in the system.
Pre-Conditions	Visited the page
Main Flow	<ol style="list-style-type: none"> <li>1. Patient/visitor goes to the session page.</li> <li>2. They register for a session they want by making the payment</li> </ol>

Post-Conditions	-
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 16: Use Case Narrative (Request diet plans)**

USE CASE NAME	Request diet plans
USE CASE ID:	16
Primary Actor	Patient
Other participating Actors	-
Description	Patient can request a diet plan from a nutritionist.
Pre-Conditions	Log into web application
Main Flow	<ol style="list-style-type: none"> <li>1. Visit nutritionist page</li> <li>2. Request a diet plan from a nutritionist providing the details and by making the payment</li> </ol>
Post-Conditions	Receive the diet plan
Related Use cases	-
Priority	High

Alternative flows/Exceptions	-
------------------------------	---

**Table 17: Use Case Narrative (Receive diet plans)**

USE CASE NAME	Receive diet plans
USE CASE ID:	17
Primary Actor	Patient
Other participating Actors	-
Description	Patient can receive a diet plan from a nutritionist.
Pre-Conditions	Requested a diet plan
Main Flow	<ol style="list-style-type: none"> <li>1. Receive the diet plan</li> <li>2. View the diet plan</li> </ol>
Post-Conditions	-

Primary Actor	Meditation instructor
Other participating Actors	-
Description	Meditation instructors can view the users who registered for meditation instructions
Pre-Conditions	Logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. Go to meditation instructions request page</li> <li>3. View registered users to get meditation instructions</li> </ol>
Post-Conditions	-
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 32: Use Case Narrative (Publish session announcement)**

USE CASE NAME	Publish session announcement
USE CASE ID:	32
Primary Actor	Meditation instructor, Nutritionist, Counselor
Other participating Actors	-
Description	They can request to announce sessions through the website.
Pre-Conditions	Logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. Go to session announcements page</li> <li>3. Announce a session</li> </ol>
Post-Conditions	The details about sessions should be true.
Related Use cases	-
Priority	Low
Alternative flows/Exceptions	-

**Table 33: Use Case Narrative (Change session details)**

USE CASE NAME	Change session details
USE CASE ID:	33
Primary Actor	Nutritionist, Counselor, Meditation instructors
Other participating Actors	-
Description	If they want they can change session details.
Pre-Conditions	They should publish session announcements.
Main Flow	<ol style="list-style-type: none"> <li>1. Login to the system</li> <li>2. Go to session announcements page</li> <li>3. Change session details</li> </ol>
Post-Conditions	The new details about sessions should be true.
Related Use cases	-
Priority	low
Alternative flows/Exceptions	-

**Table 34: Use Case Narrative (Delete sessions)**

USE CASE NAME	Delete sessions
USE CASE ID:	34
Primary Actor	Nutritionist, Counselor, Meditation instructors
Other participating Actors	-
Description	If they need, they can delete published sessions announcements.
Pre-Conditions	They should publish session announcements. Either no users are registered or the session is already completed.
Main Flow	<ol style="list-style-type: none"> <li>1. Login to the system</li> <li>2. Go to session announcements page</li> <li>3. Delete published sessions</li> </ol>
Post-Conditions	Deleted the session
Related Use cases	-
Priority	low
Alternative flows/Exceptions	-

**Table 35: Use Case Narrative (Receive orders)**

USE CASE NAME	Receive orders
USE CASE ID:	35
Primary Actor	Pharmacist
Other participating actors	-
Description	Pharmacists can receive medicine orders (in form of a prescription) from patients.
Pre-Conditions	Patient sent a prescription
Main Flow	<ol style="list-style-type: none"> <li>1. Pharmacist receives a notification about an order</li> <li>2. View the prescription</li> </ol>
Post-Conditions	Accept or reject the order
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

**Table 36: Use Case Narrative (Accept/reject orders)**

USE CASE NAME	Accept/reject orders
USE CASE ID:	36
Primary Actor	Pharmacist
Other participating actors	-
Description	Pharmacists can respond to received orders.
Pre-Conditions	Received an order
Main Flow	<ol style="list-style-type: none"> <li>1. Pharmacist receives a notification about an order</li> <li>2. View the prescription</li> <li>3. Accept the order</li> <li>4. Receive payment</li> </ol>
Post-Conditions	-
Related Use cases	-
Priority	High
Alternative flows/Exceptions	Reject the order if medicines in the prescription are not available in the pharmacy

**Table 37: Use Case Narrative (View selling history)**

USE CASE NAME	View selling history
USE CASE ID:	37
Primary Actor	Pharmacist
Other participating actors	-
Description	Pharmacists can view the details about previous orders he/she accepted.
Pre-Conditions	Logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. Go to the selling history page</li> <li>2. View selling history</li> </ol>

Alternative flows/Exceptions	-

**Table 38: Use Case Narrative (Receive payment)**

USE CASE NAME	Receive Payment
USE CASE ID:	38
Primary Actor	Doctor, Counselor, Pharmacist, Meditation Instructors, Nutritionist
Other participating Actors	Admin
Description	Doctor, Counselor, Pharmacist, Meditation Instructors, Nutritionist can receive payment for their services. A portion of the payment is send to the admin as a service charge by the system.
Pre-Conditions	Patient has made an online payment
Main Flow	<ol style="list-style-type: none"> <li>1. Receive a notification about a payment</li> <li>2. View details</li> </ol>
Post-Conditions	-
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

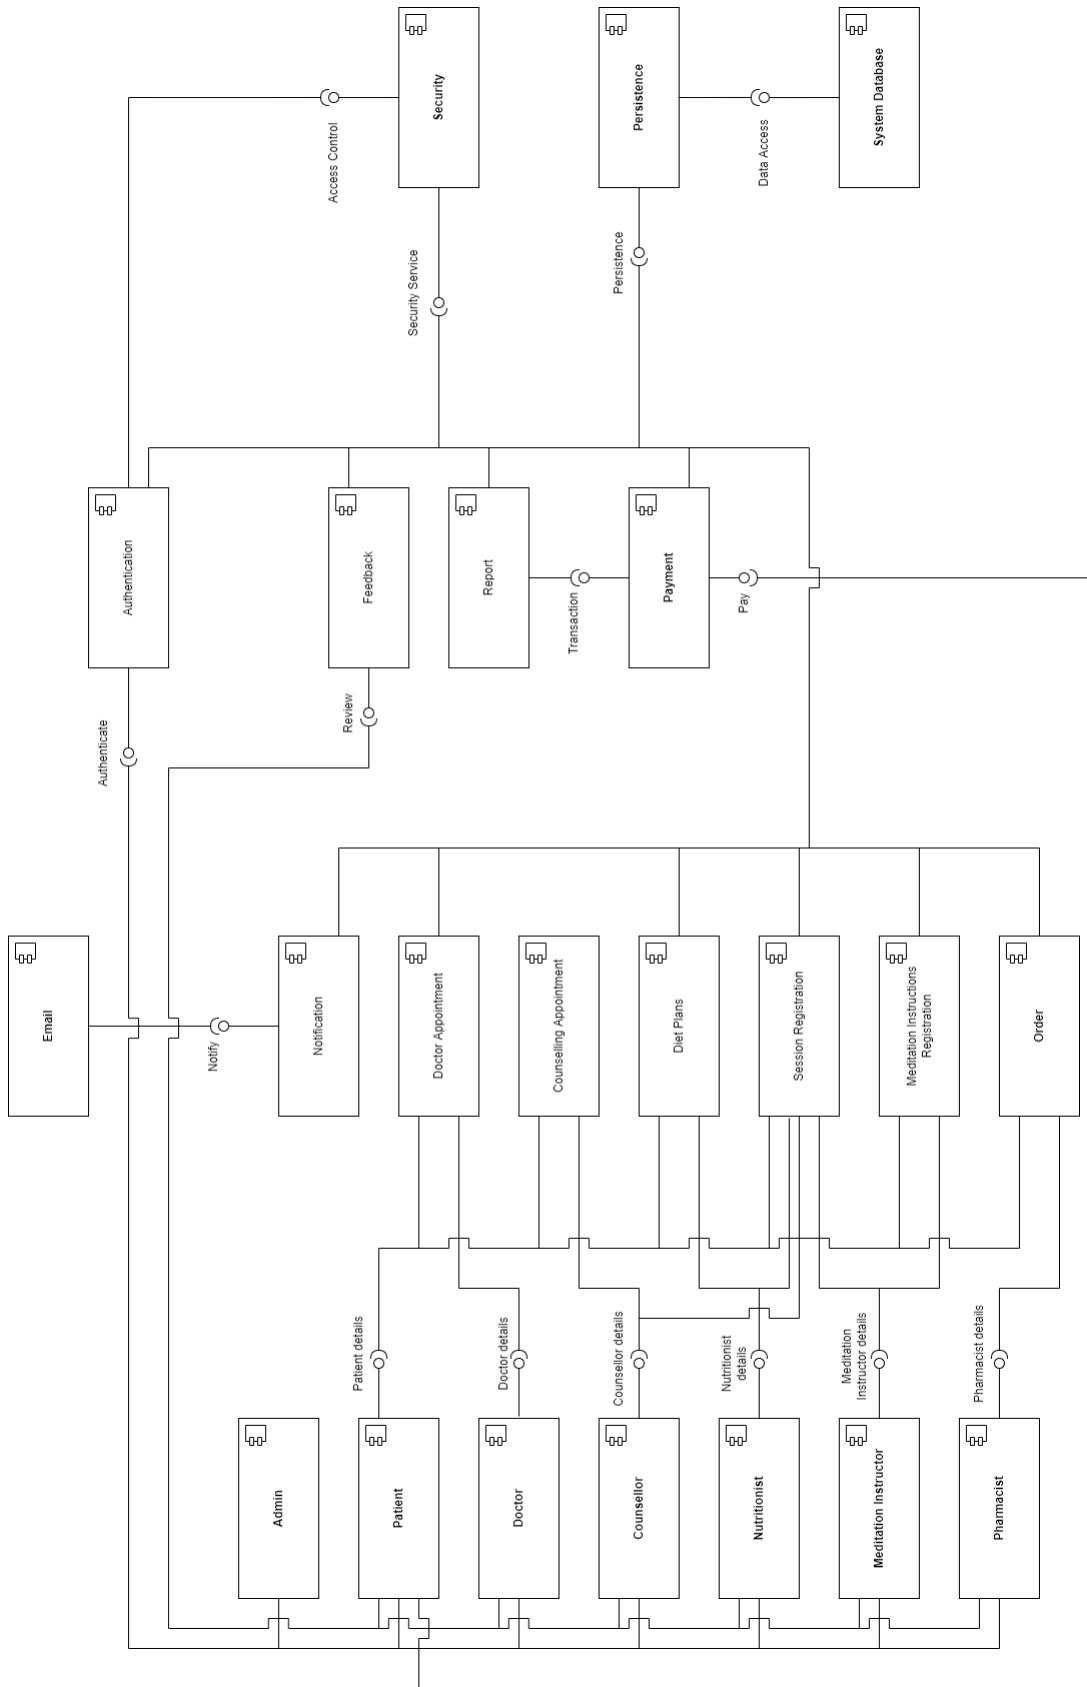

**Table 39: Use case Narrative (Generating financial reports)**

USE CASE NAME	Generating financial reports
USE CASE ID:	39
Primary Actor	Admin
Other participating Actors	-
Description	Since the system is developed with a business aspect, admin can take records of income and profits from the system by creating financial reports at the end of each month
Pre-Conditions	Logged into the system
Main Flow	<ol style="list-style-type: none"> <li>1. Admin goes in to the financial records page</li> <li>2. Clicks on create report</li> </ol>
Post-Conditions	Get a document containing all the financial records of the month
Related Use cases	-
Priority	High
Alternative flows/Exceptions	-

### Assumptions

- Services in other (except E-Pharmacy) are e-channeling (for doctors and psychological counselors), receiving diet plans, registering for meditation instructions and registering for nutritionist/counseling/meditating sessions.

## 4. Component Diagram

## 4.1 Components and their responsibilities

### Authentication

This component is responsible for granting access for 7 different actors in our system. This saves the system from unauthorized users.

### Security

This component provides security for the system by ensuring any confidential data or information would not be compromised from the system.

### System Database

This is the component where all the data and information needed for all the processes in the system is stored with persistence.

### Persistence

This component makes sure that the data and information in the database is available when they are needed throughout the lifetime of the system.

### Payment

This component is responsible for managing and keeping track of information regarding all the payments happened within the system.

### Record

This component is responsible for generating financial reports for admins to keep track of information regarding profits.

### Feedback

This component is responsible for storing and managing user feedbacks regarding our system.

### Notification

This component is responsible for notifying the users about their relevant tasks they needed to have the track of within the system.

### Email

This handles all the emails send by the system to the users.

## Patient

This component is responsible for managing and providing details regarding patients in the system when they are needed in a process involving the actor “patient”.

## Doctor

This component is responsible for managing and providing details regarding doctors in the system when they are needed in a process involving the actor “Doctor”.

## Counsellor

This component is responsible for managing and providing details regarding counsellors in the system when they are needed in a process involving the actor “counsellor”.

## Nutritionist

This component is responsible for managing and providing details regarding nutritionists in the system when they are needed in a process involving the actor “nutritionist”.

## Meditation Instructor

This component is responsible for managing and providing details regarding meditating instructors in the system when they are needed in a process involving the actor “patient”.

## Pharmacist

This component is responsible for managing and providing details regarding pharmacists in the system when they are needed in a process involving the actor “pharmacist”.

## Doctor Appointment

This component is responsible for storing, managing and providing details regarding all the doctor appointments made within the system.

## Counselling Appointment

This component is responsible for storing, managing and providing details regarding all the counselling appointments made within the system.

## Diet Plans

This component is responsible for storing, managing and providing details regarding all the diet plans issued and received within the system.

## Session Registration

This component is responsible for storing, managing and providing details regarding all the session registrations made within the system.

## Meditation Instructions Registration

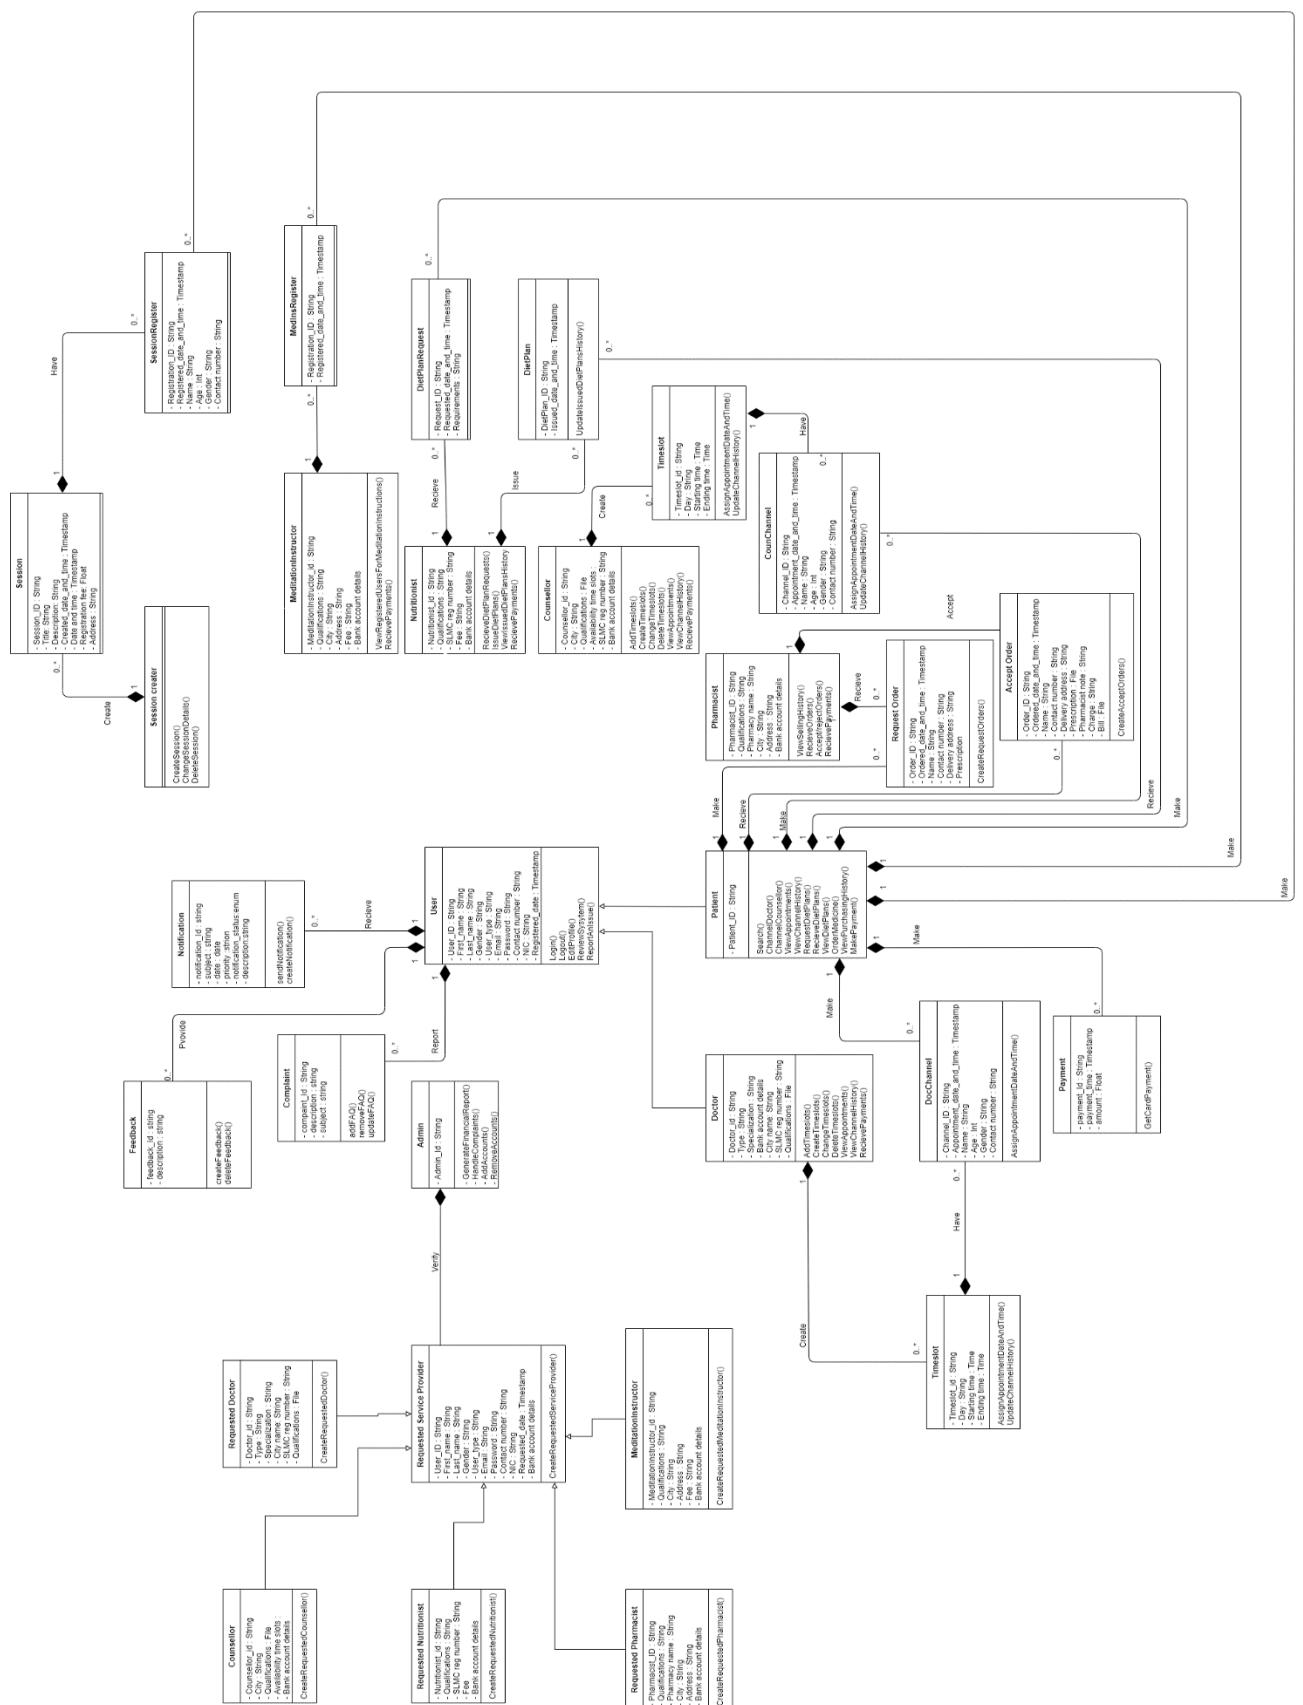

This component is responsible for storing, managing and providing details regarding all the meditation instructions registrations made within the system.

## Order

This component is responsible for storing, managing and providing details regarding all the medicine orders made within the system.

## 6.3 Patient Interfaces

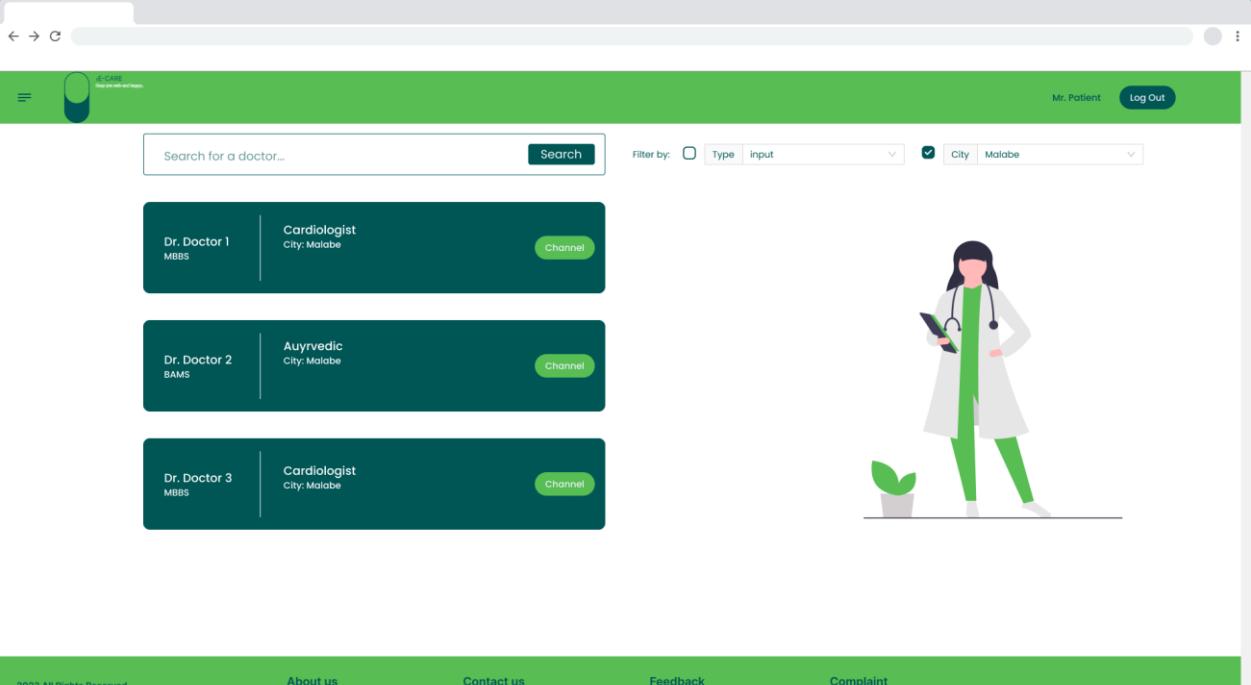

### Visitor home

### Patient home

## Channel a doctor

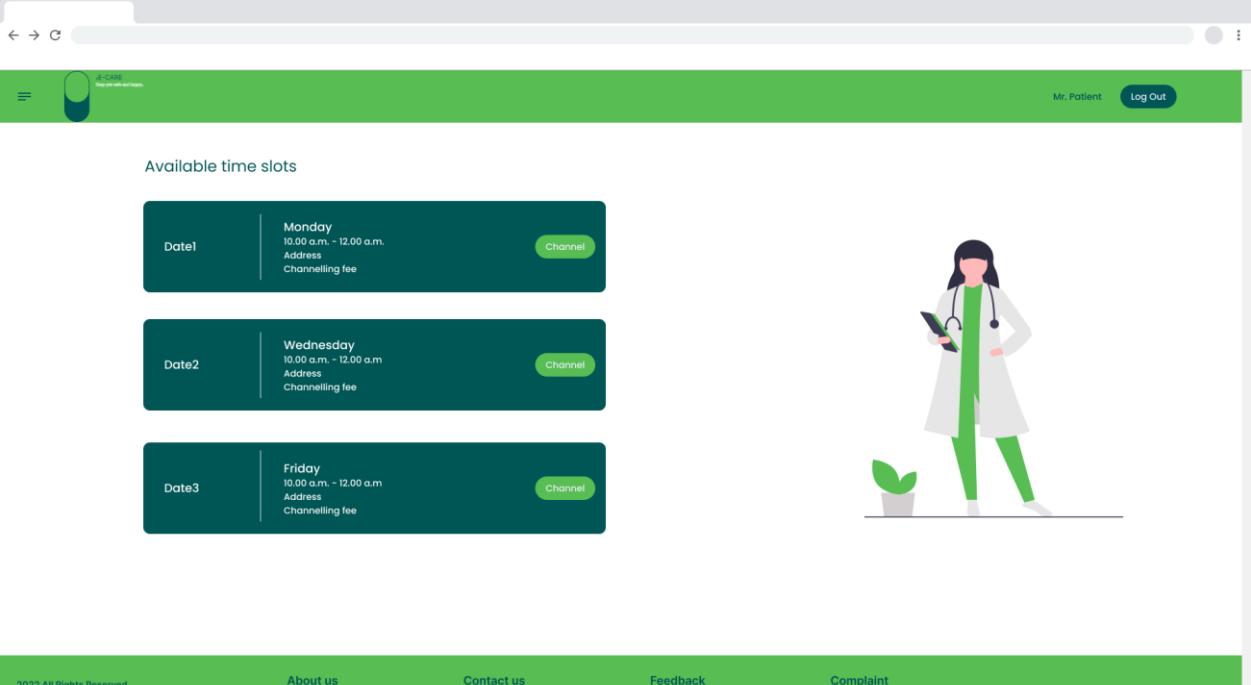

The screenshot shows a web browser window with the BE-CARE logo at the top. The main content area displays a search results page for doctors. A search bar at the top has the placeholder "Search for a doctor..." and a "Search" button. Below the search bar is a filter section with the text "Filter by: Type input" and a dropdown menu set to "City Malabe".

Three doctor profiles are listed in a grid:

- Dr. Doctor 1** MBBS, Cardiologist, City: Malabe. Includes a "Channel" button.
- Dr. Doctor 2** BAMS, Ayurvedic, City: Malabe. Includes a "Channel" button.
- Dr. Doctor 3** MBBS, Cardiologist, City: Malabe. Includes a "Channel" button.

A decorative illustration of a female doctor in a green coat holding a tablet is positioned to the right of the profiles. At the bottom of the page is a green footer bar with links: "2022 All Rights Reserved", "About us", "Contact us", "Feedback", and "Complaint".

## Channel a doctor availability time slots

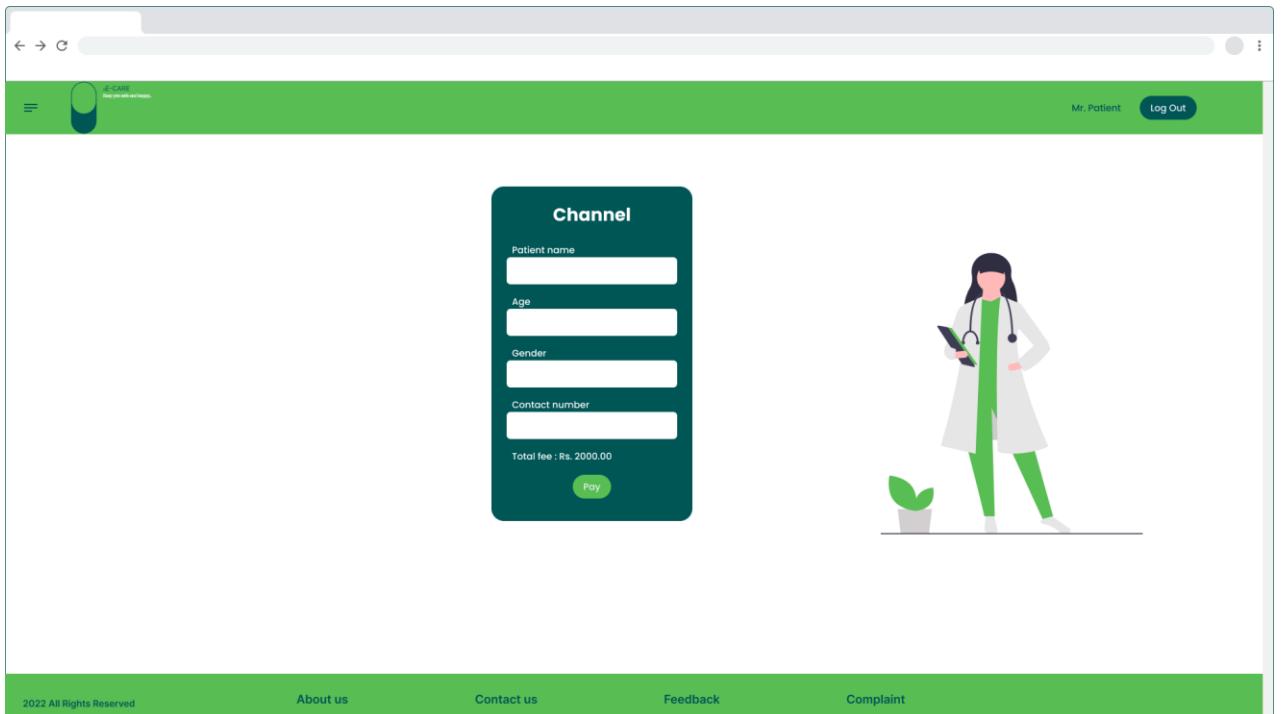

The screenshot shows a web browser window with the BE-CARE logo at the top. The main content area displays a section titled "Available time slots".

Three time slot entries are shown in a grid:

- Date1**: Monday, 10.00 a.m. - 12.00 a.m., Address, Channelling fee. Includes a "Channel" button.
- Date2**: Wednesday, 10.00 a.m. - 12.00 a.m., Address, Channelling fee. Includes a "Channel" button.
- Date3**: Friday, 10.00 a.m. - 12.00 a.m., Address, Channelling fee. Includes a "Channel" button.

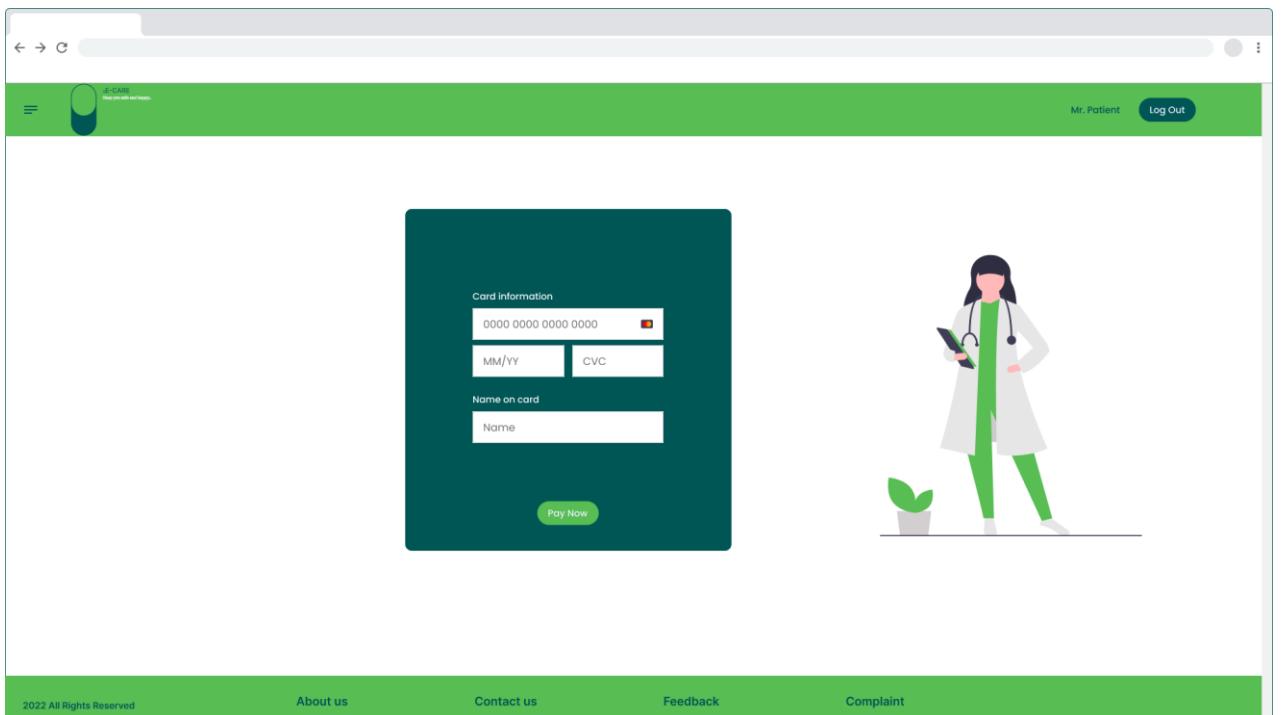

A decorative illustration of a female doctor in a green coat holding a tablet is positioned to the right of the time slots. At the bottom of the page is a green footer bar with links: "2022 All Rights Reserved", "About us", "Contact us", "Feedback", and "Complaint".

## Channel a doctor form

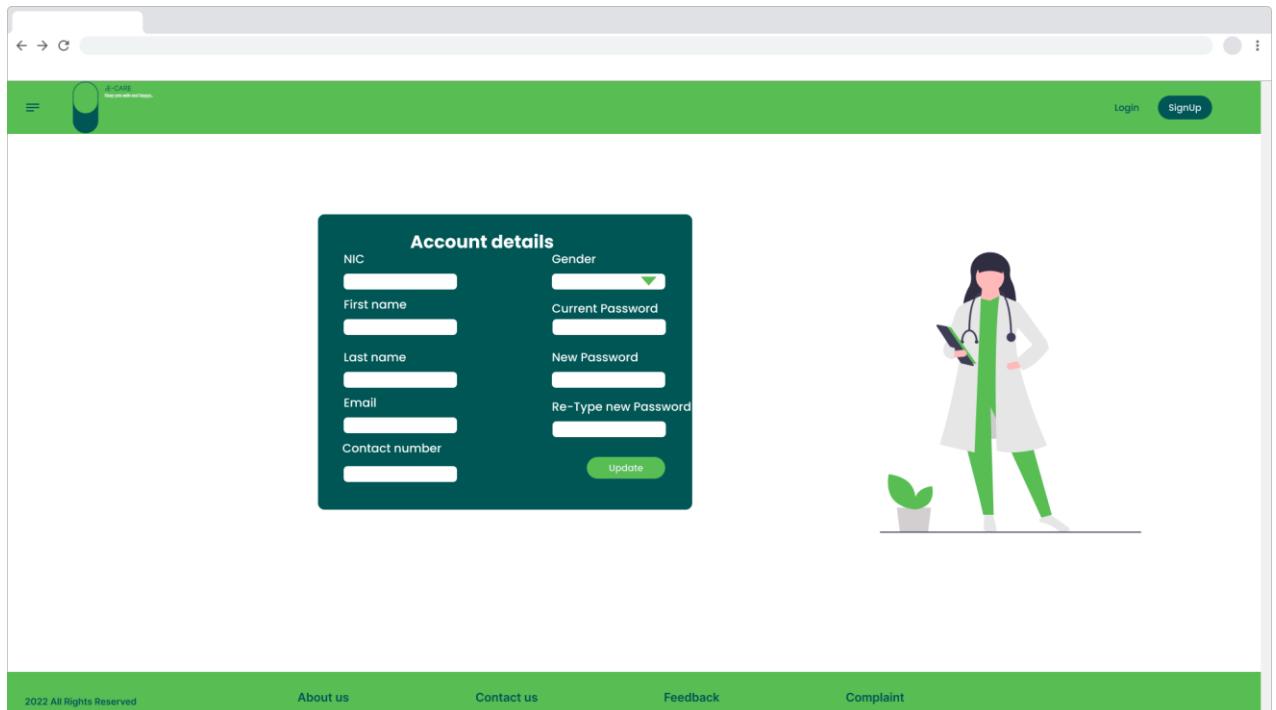

The screenshot shows a web browser window with the E-CARE logo at the top left. At the top right, there are links for "Mr. Patient" and "Log Out". The main content area features a dark teal box titled "Channel" containing fields for "Patient name", "Age", "Gender", and "Contact number". Below these fields is the text "Total fee : Rs. 2000.00" and a green "Pay" button. To the right of the form is a cartoon illustration of a female doctor in a white coat and green scrubs, holding a clipboard and a stethoscope, standing next to a small potted plant. At the bottom of the page is a green footer bar with links for "About us", "Contact us", "Feedback", and "Complaint".

## Payment gateway

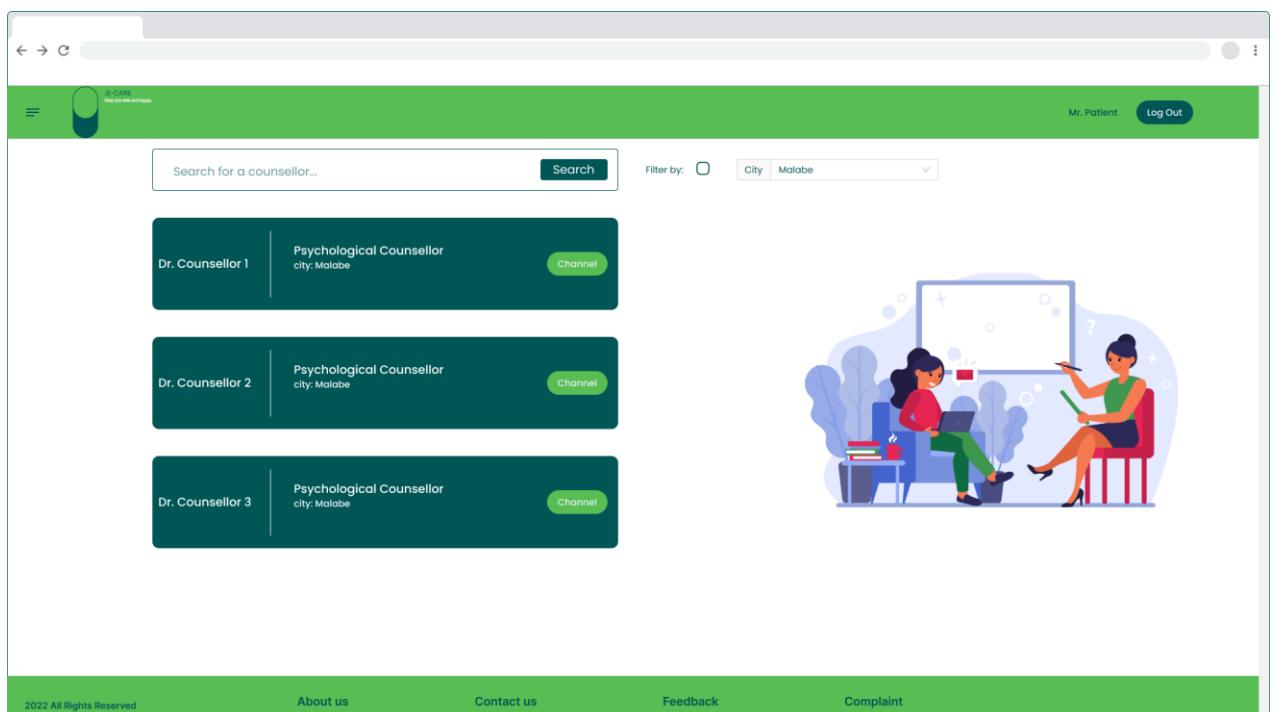

The screenshot shows a web browser window with the E-CARE logo at the top left. At the top right, there are links for "Mr. Patient" and "Log Out". The main content area features a dark teal box titled "Card Information" containing fields for "Card Number" (with a placeholder "0000 0000 0000 0000" and a flag icon), "MM/YY", "CVC", and "Name on card". Below these fields is a green "Pay Now" button. To the right of the form is a cartoon illustration of a female doctor in a white coat and green scrubs, holding a clipboard and a stethoscope, standing next to a small potted plant. At the bottom of the page is a green footer bar with links for "About us", "Contact us", "Feedback", and "Complaint".

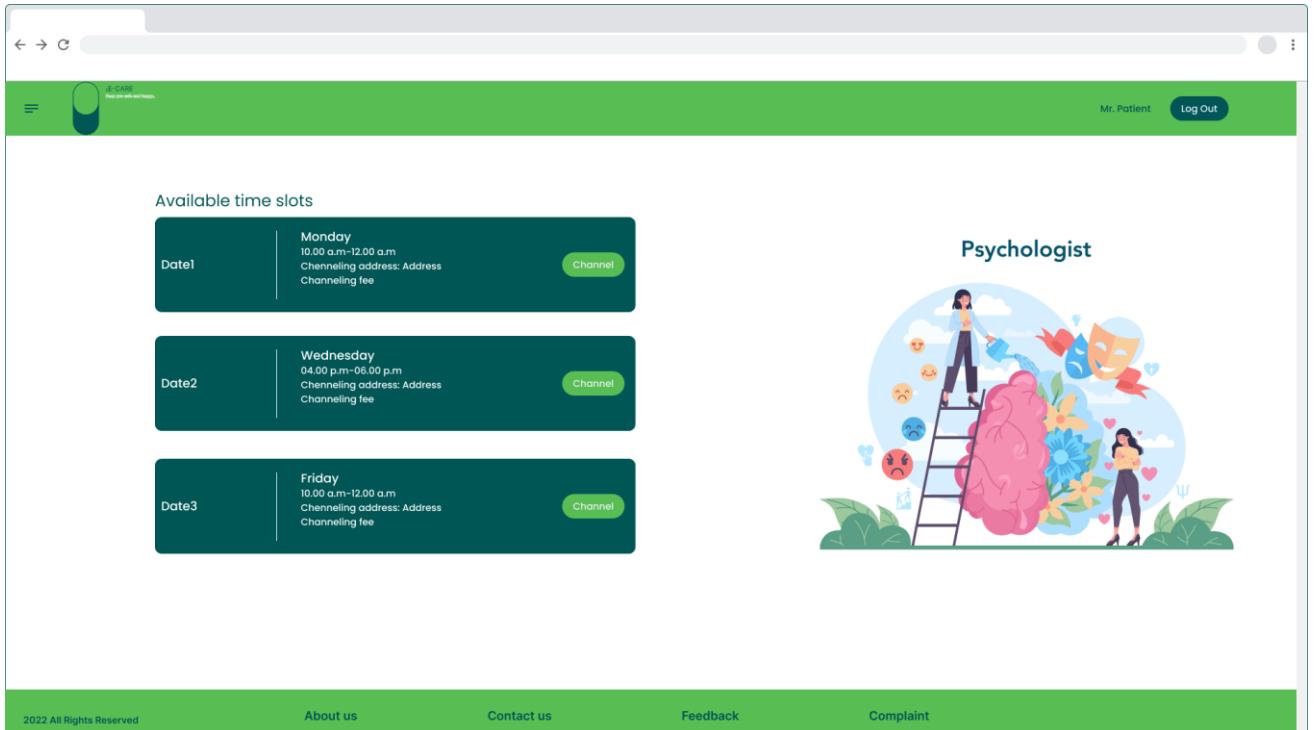

## Patient Account details

## Channel a counsellor

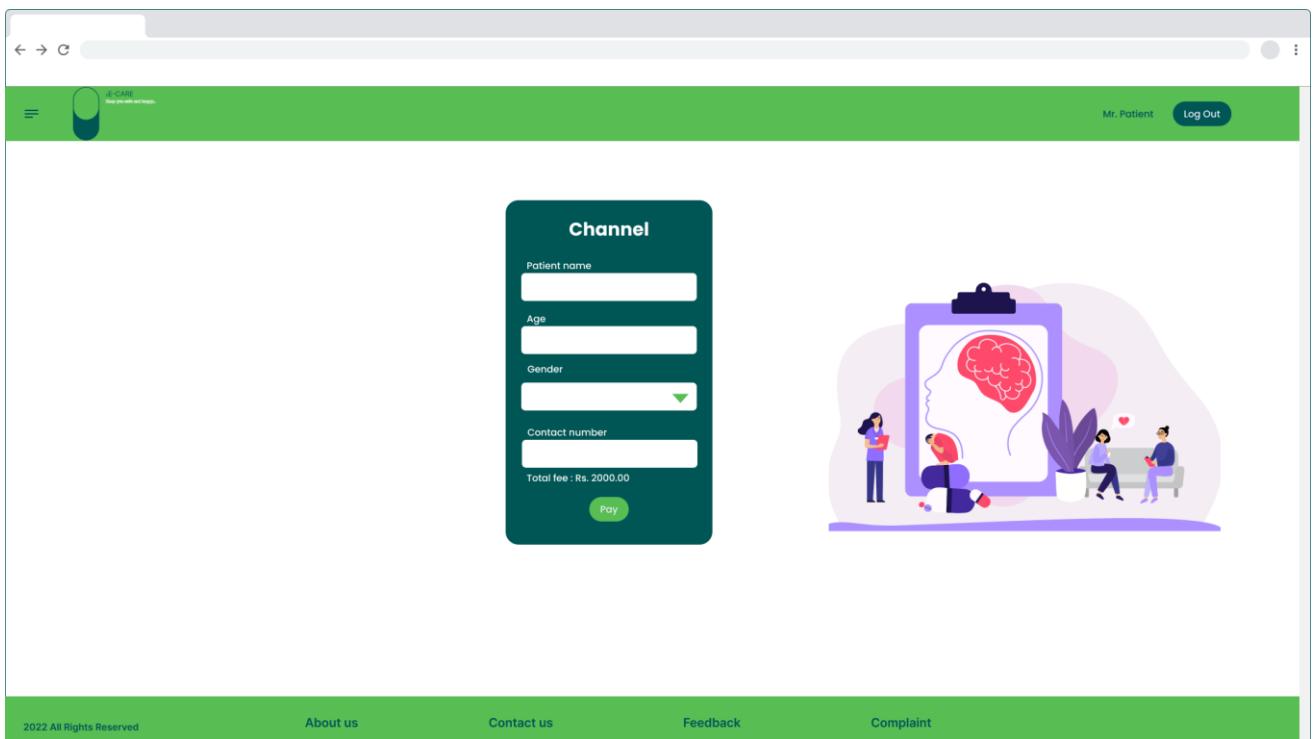

## Channel a counsellor availability time slots

The screenshot shows a web interface for booking a counsellor. At the top, there's a green header bar with the E-CARE logo, a menu icon, and user information ('Mr. Patient' and 'Log Out'). Below the header, the main content area has a title 'Available time slots'. It lists three time slots: 'Date1' (Monday, 10:00 a.m.-12:00 a.m., Channelling address: Address, Channelling fee), 'Date2' (Wednesday, 04:00 p.m.-06:00 p.m., Channelling address: Address, Channelling fee), and 'Date3' (Friday, 10:00 a.m.-12:00 a.m., Channelling address: Address, Channelling fee). Each slot has a 'Channel' button. To the right of the slots is a decorative illustration of a psychologist standing on a ladder next to a large brain, surrounded by various icons like hearts, a mask, and a lightbulb.

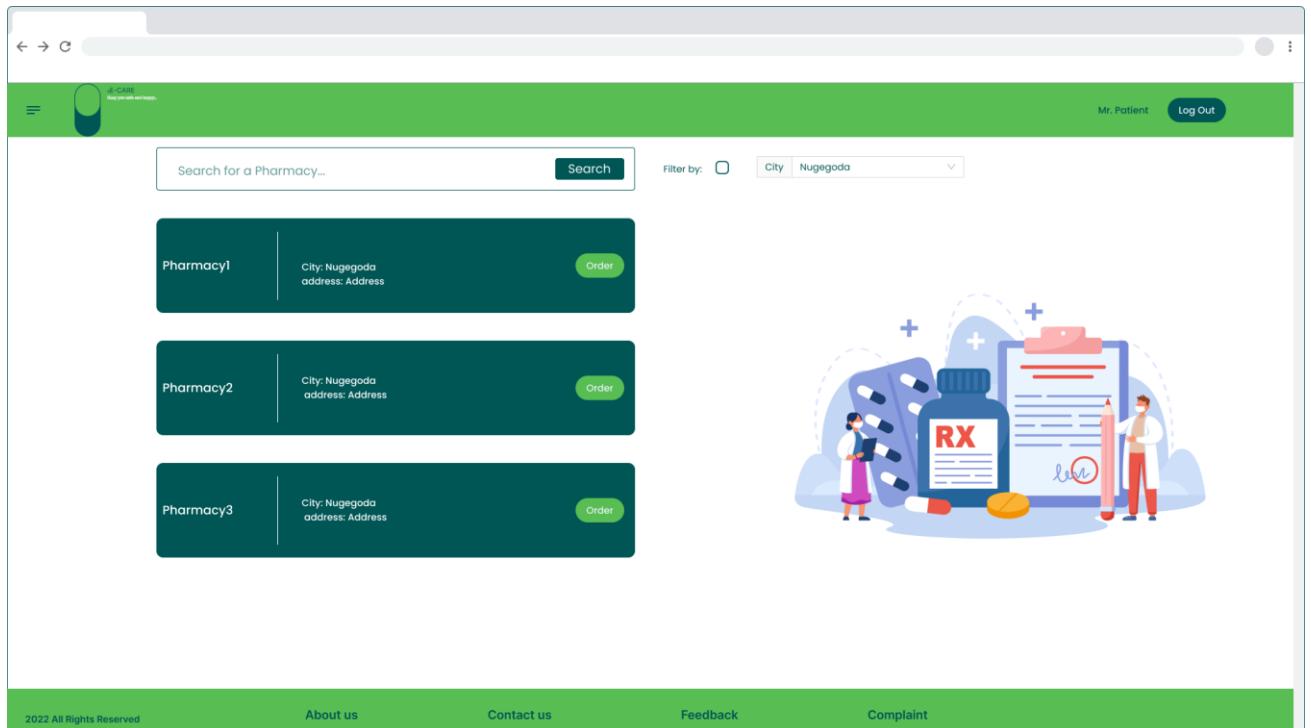

## Channel a counsellor form

The screenshot shows a web interface for booking a counsellor. At the top, there's a green header bar with the E-CARE logo, a menu icon, and user information ('Mr. Patient' and 'Log Out'). Below the header, the main content area has a title 'Channel'. A form is displayed with fields for 'Patient name' (input field), 'Age' (input field), 'Gender' (dropdown menu), 'Contact number' (input field), and a note 'Total fee : Rs. 2000.00'. A 'Pay' button is at the bottom of the form. To the right of the form is a decorative illustration of a psychologist's office with a clipboard showing a brain profile, and people sitting in the background.

## Payment gateway

## Order Medicine

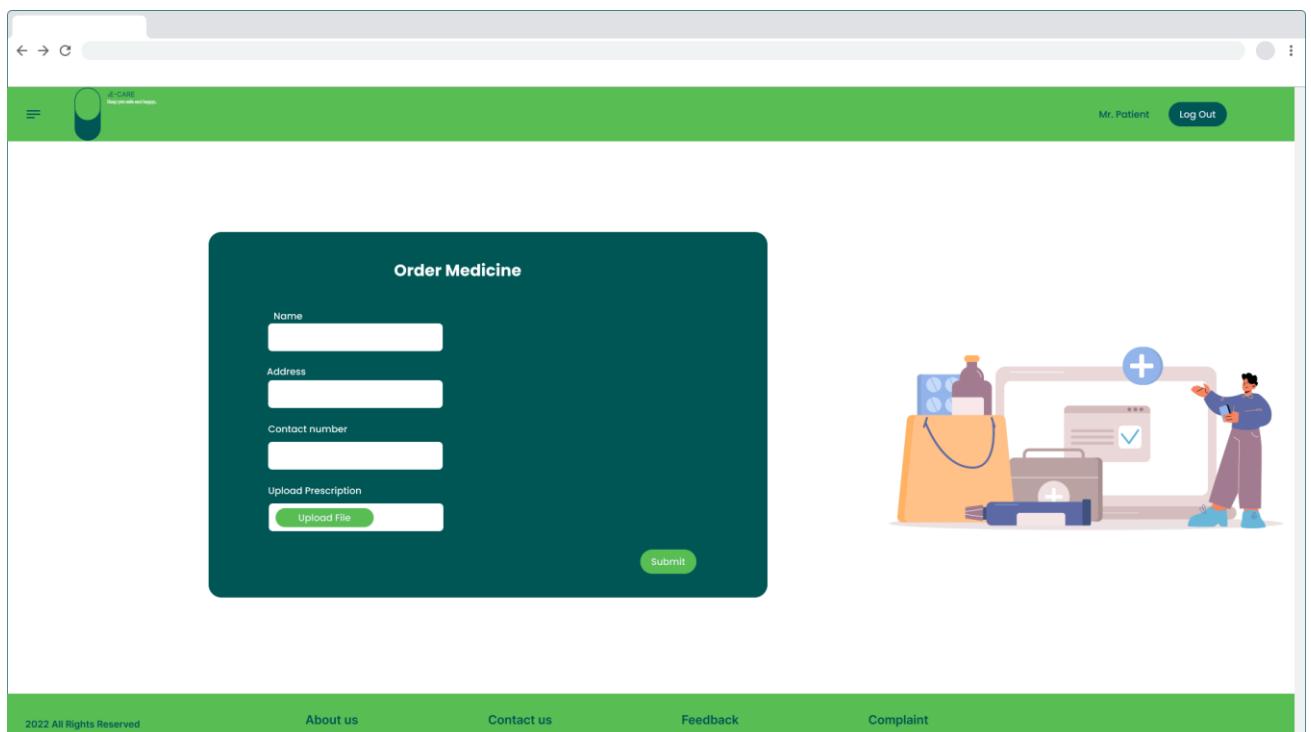

The screenshot shows a web application interface for ordering medicine. At the top, there's a navigation bar with a search bar, a filter dropdown set to 'City: Nugegoda', and user account information ('Mr. Patient' and 'Log Out'). Below the navigation is a list of three pharmacies, each with a name, location, and an 'Order' button:

- Pharmacy1: City: Nugegoda, address: Address
- Pharmacy2: City: Nugegoda, address: Address
- Pharmacy3: City: Nugegoda, address: Address

To the right of the list is a colorful illustration depicting medical professionals, prescription bottles, and medical icons.

At the bottom of the page is a footer with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

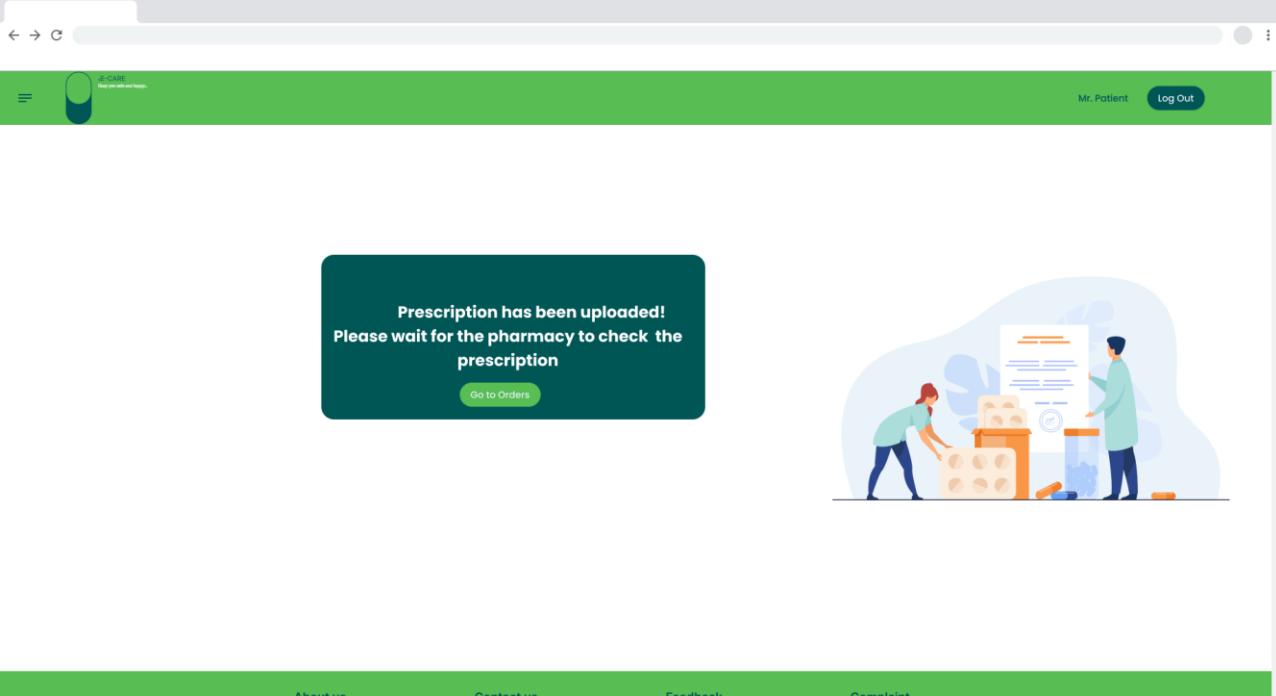

## Order Medicine form

The screenshot shows a detailed 'Order Medicine' form. The form fields include 'Name', 'Address', 'Contact number', and a file upload section for 'Upload Prescription'. A green 'Submit' button is located at the bottom right of the form area. To the right of the form is a colorful illustration of a person interacting with a digital interface displaying medical data.

At the bottom of the page is a footer with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## Register for a Meditation Instructor

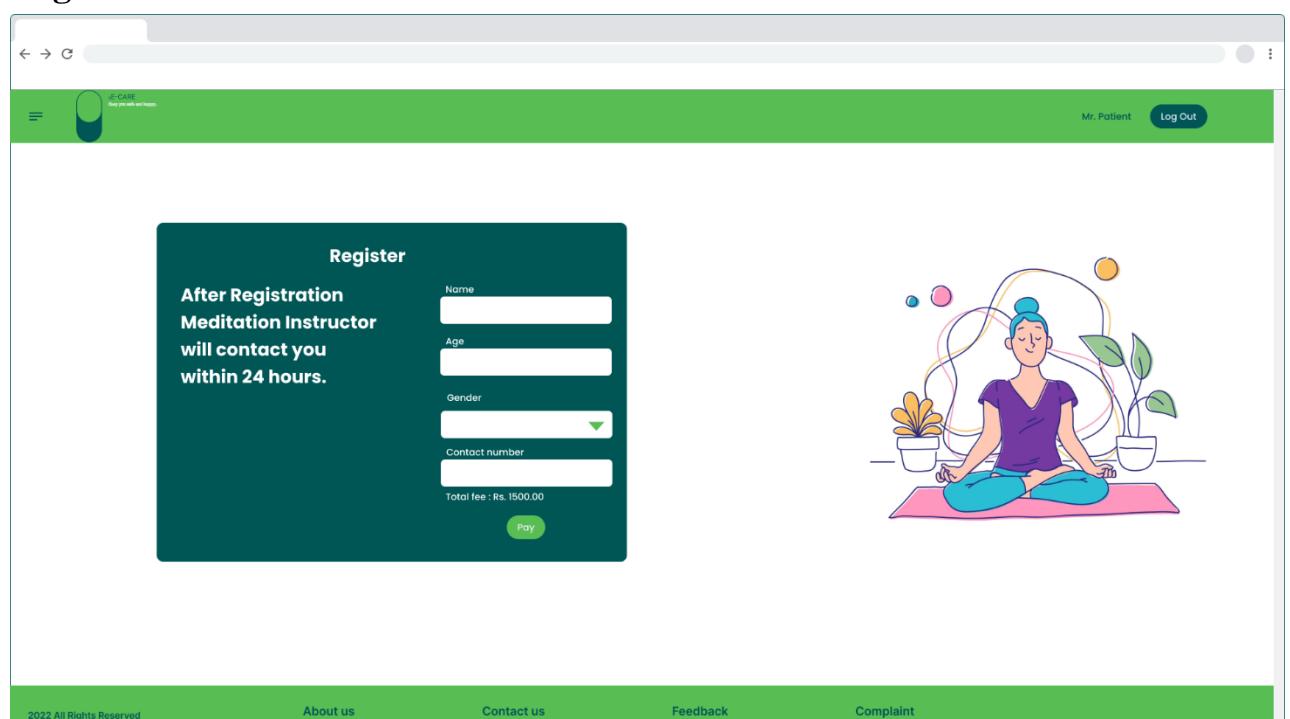

The screenshot shows a web browser window with the BE-CARE logo at the top right. The main content area displays a search bar with placeholder text "Search for a Meditation instructor..." and a "Search" button. Below the search bar is a filter section labeled "Filter by:" with a dropdown menu set to "City: Kirulapana". A list of three meditation instructors is shown in cards:

- Mr. Meditation Instructor 1**: Address: Kirulapana, Contact No: 0715896452, Fee: [redacted]. **Register** button.
- Mr. Meditation Instructor 2**: Address: Kirulapana, Contact No: 0717846452, Fee: [redacted]. **Register** button.
- Mrs. Meditation Instructor 3**: Address: Kirulapana, Contact No: 0711128452, Fee: [redacted]. **Register** button.

To the right of the list is a cartoon illustration of a person meditating in a lotus pose with a lightbulb above their head, symbolizing ideas or enlightenment. At the bottom of the page is a green footer bar with links: "2022 All Rights Reserved", "About us", "Contact us", "Feedback", and "Complaint".

## Register for a Meditation Instructor form

The screenshot shows a web browser window with the BE-CARE logo at the top right. The main content area features a "Register" form on the left and a cartoon illustration of a person meditating on the right.

**Register**

**After Registration**  
**Meditation Instructor**  
**will contact you**

Form fields include:

- Name: [input field]
- Age: [input field]
- Gender: [dropdown menu]
- Contact number: [input field]
- Total fee : Rs. 1500.00
- Pay** button

The right side of the page features a cartoon illustration of a person meditating in a lotus pose, surrounded by colorful circles and plants. At the bottom of the page is a green footer bar with links: "2022 All Rights Reserved", "About us", "Contact us", "Feedback", and "Complaint".

## Payment gateway

## Register for a Session

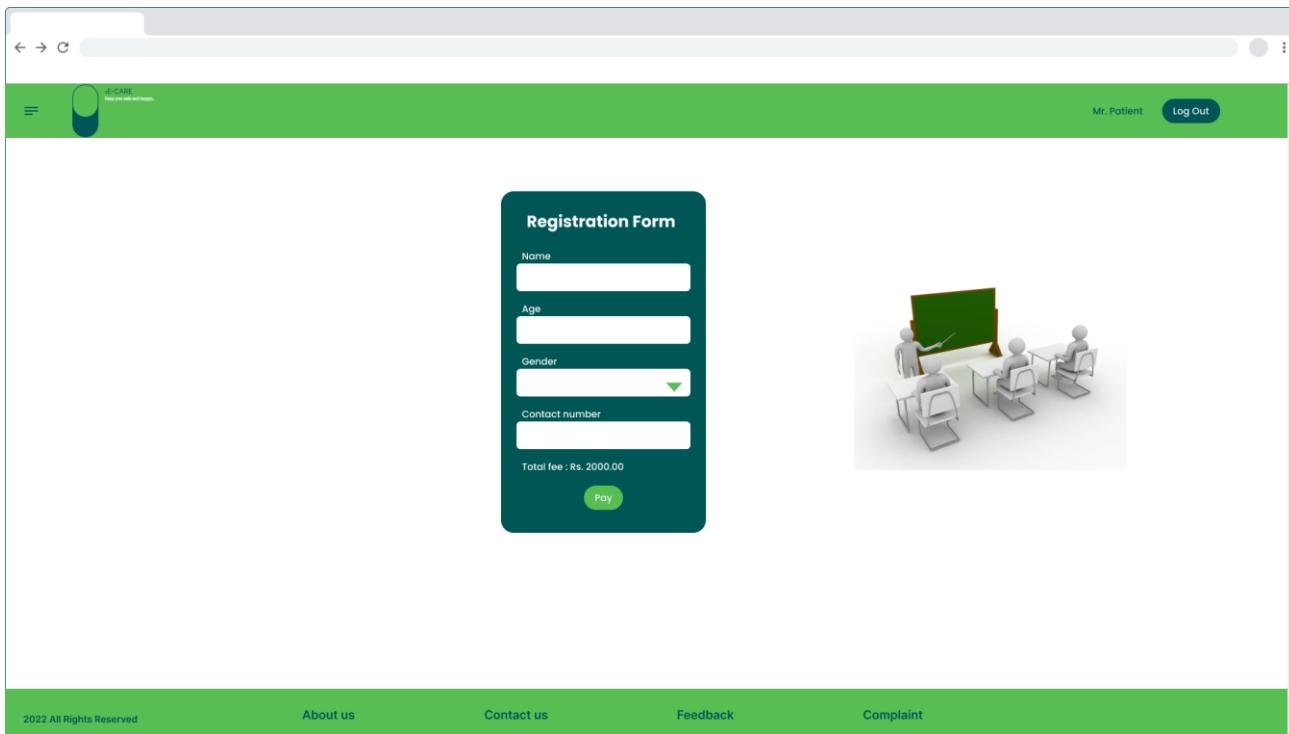

The screenshot shows a web browser window for the E-CARE platform. At the top, there's a green header bar with the E-CARE logo, a menu icon, and user links for "Mr. Patient" and "Log Out". Below the header, the main content area has a title "Sessions" and three cards representing different session types:

- Counselling Session**: Dr.Counsellor, 2022.12.01, Address, with "Register" and "see more" buttons.
- Nutrition Session**: Mrs.Nutritionist, 2022.12.15, Address, with "Register" and "see more" buttons.
- Meditation Session**: Mrs.MedInstructor, 2022.12.30, Address, with "Register" and "Hide" buttons. This card also includes fields for "Starting time", "Ending time", and "Description".

On the right side of the page, there are two decorative illustrations: a brain with a person meditating inside it, and a cartoon character of a man in a suit and headset working on a laptop and giving a thumbs up.

At the bottom of the page is a green footer bar with links: "2022 All Rights Reserved", "About us", "Contact us", "Feedback", and "Complaint".

## Session registration form

The screenshot shows a web browser window for the E-CARE platform. At the top, there's a green header bar with the E-CARE logo, a menu icon, and user links for "Mr. Patient" and "Log Out". Below the header, the main content area features a "Registration Form" card with the following fields:

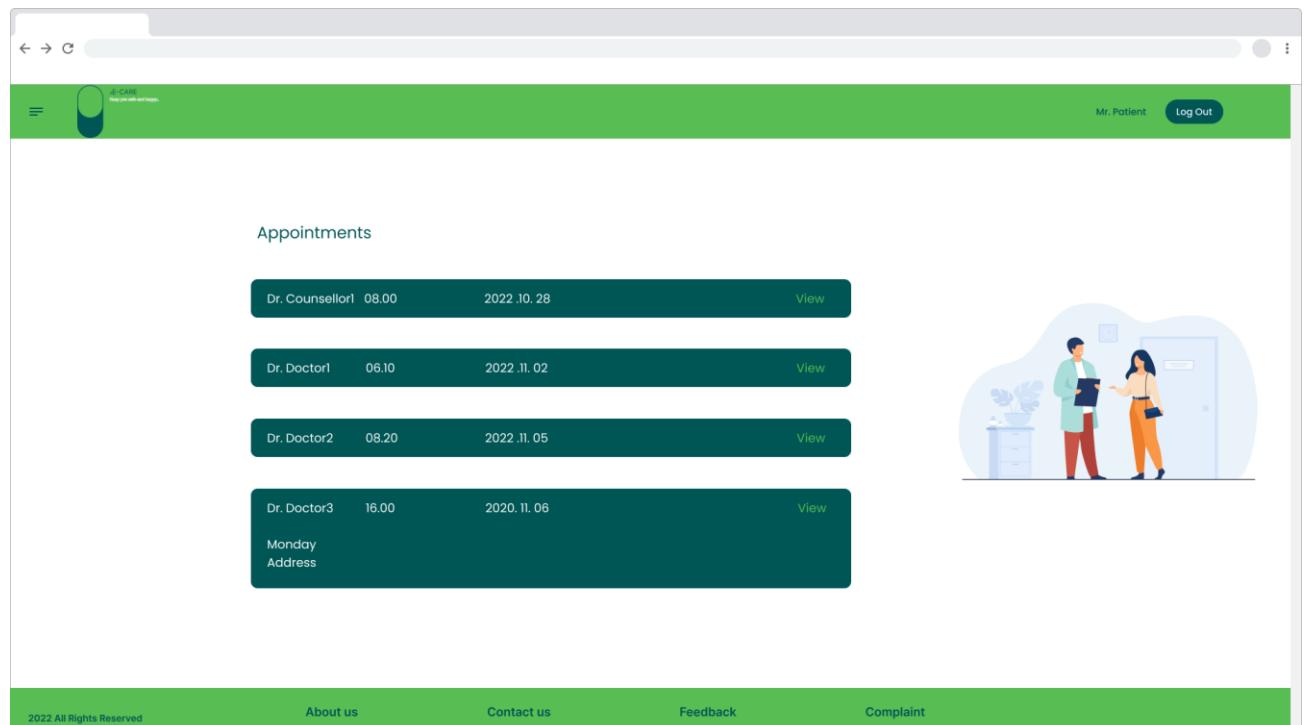

- Name: Input field
- Age: Input field
- Gender: A dropdown menu with a visible arrow indicating it's a dropdown.
- Contact number: Input field

Below these fields, a note says "Total fee : Rs. 2000.00" and a "Pay" button. To the right of the form, there's an illustration of a classroom scene with a teacher at a chalkboard and students at their desks.

At the bottom of the page is a green footer bar with links: "2022 All Rights Reserved", "About us", "Contact us", "Feedback", and "Complaint".

## Payment gateway

## Appointments

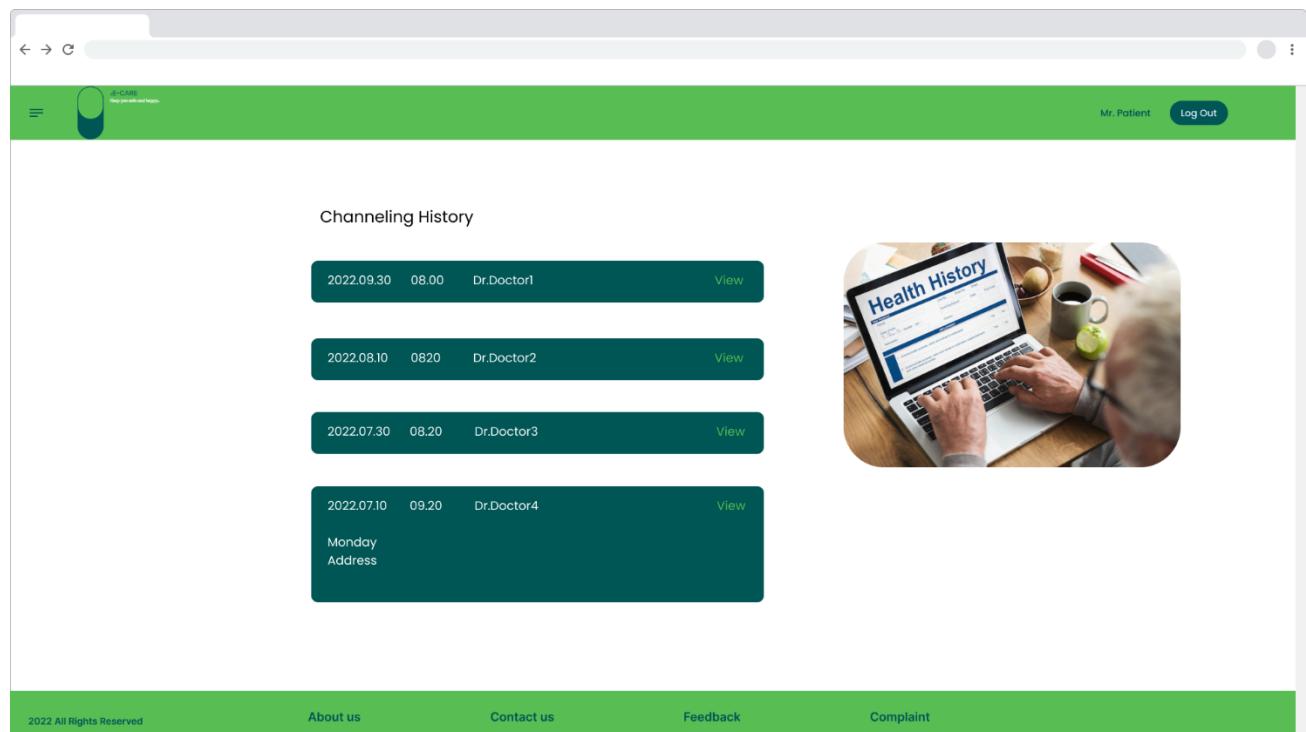

The screenshot shows the 'Appointments' section of the E-CARE web application. At the top right, there are 'Mr. Patient' and 'Log Out' buttons. Below the header, the title 'Appointments' is centered. A list of four scheduled appointments is displayed in a grid format:

Doctor	Time	Date	Action
Dr. Counsellor1	08.00	2022.II.28	<a href="#">View</a>
Dr. Doctor1	06.10	2022.II.02	<a href="#">View</a>
Dr. Doctor2	08.20	2022.II.05	<a href="#">View</a>
Dr. Doctor3	16.00	2020.II.06	<a href="#">View</a>

Below the list, there is a note: 'Monday Address'. To the right of the list, there is a small illustration of a doctor and a patient in a consultation room.

At the bottom of the page, a green footer bar contains links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## Channeling History

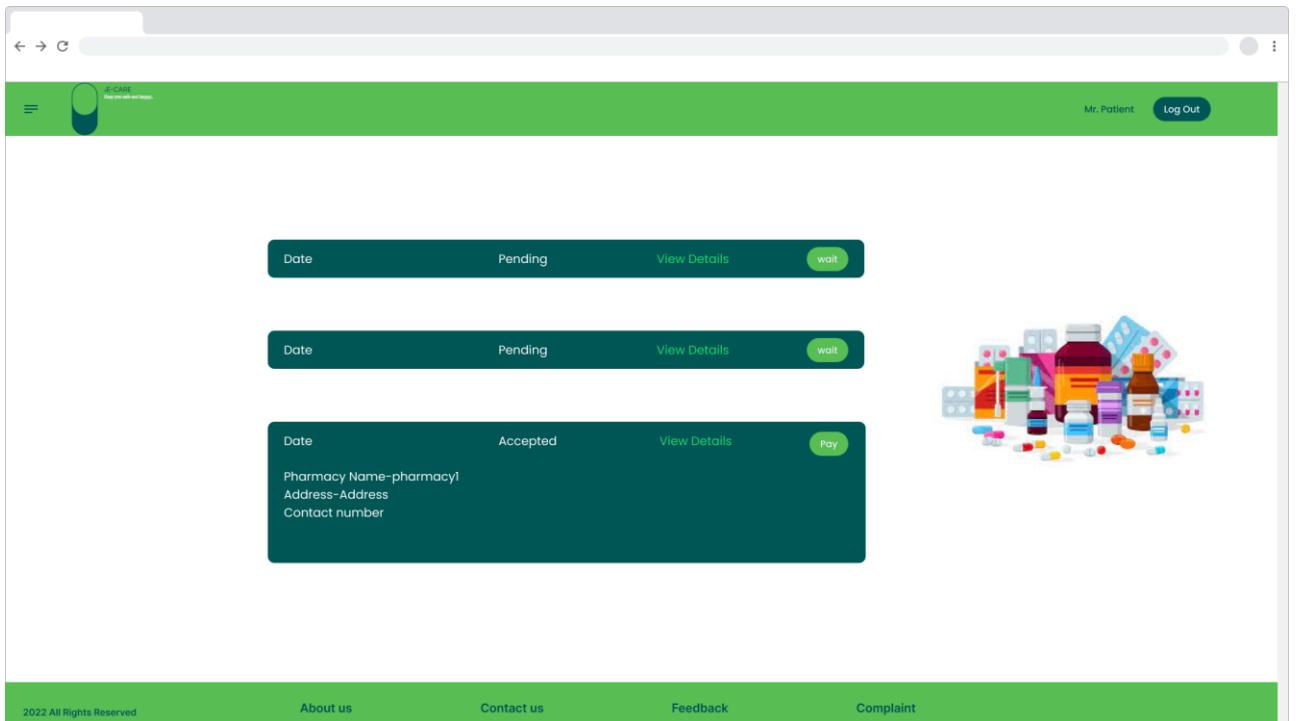

The screenshot shows the 'Channeling History' section of the E-CARE web application. At the top right, there are 'Mr. Patient' and 'Log Out' buttons. Below the header, the title 'Channeling History' is centered. A list of four messages is displayed in a grid format:

Date	Time	Doctor	Action
2022.09.30	08.00	Dr.Doctor1	<a href="#">View</a>
2022.08.10	0820	Dr.Doctor2	<a href="#">View</a>
2022.07.30	08.20	Dr.Doctor3	<a href="#">View</a>
2022.07.10	09.20	Dr.Doctor4	<a href="#">View</a>

Below the list, there is a note: 'Monday Address'. To the right of the list, there is a large image showing a person's hands typing on a laptop keyboard with a 'Health History' document open on the screen.

At the bottom of the page, a green footer bar contains links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## Medicine orders

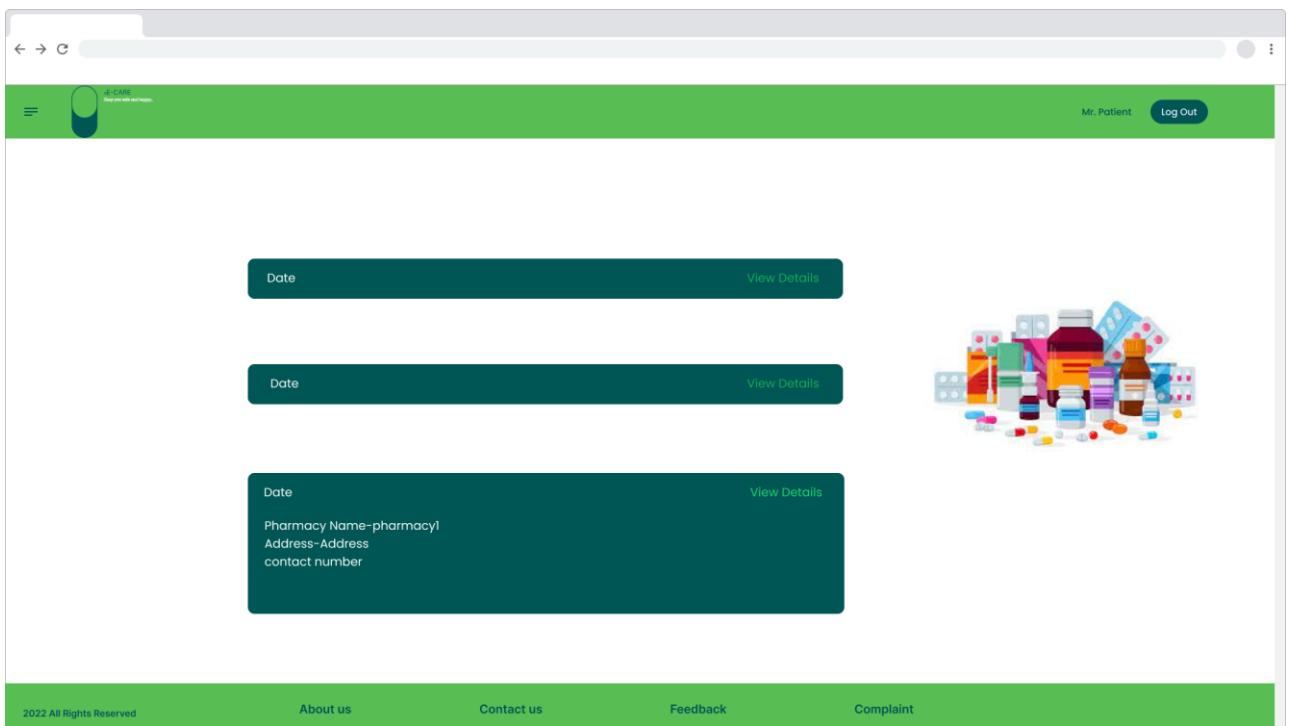

The screenshot shows the 'Medicine orders' section of the E-CARE platform. At the top right, there are 'Mr. Patient' and 'Log Out' buttons. Below the header, there are three order cards:

- Order 1:** Date [redacted], Pending, View Details, Wait button.
- Order 2:** Date [redacted], Pending, View Details, Wait button.
- Order 3:** Date [redacted], Accepted, View Details, Pay button. Below this card, there is additional text: 'Pharmacy Name-pharmacy1', 'Address-Address', and 'Contact number'.

A decorative illustration of various medicine bottles and pills is located on the right side of the page. At the bottom, there is a footer bar with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## Order history

The screenshot shows the 'Order history' section of the E-CARE platform. At the top right, there are 'Mr. Patient' and 'Log Out' buttons. Below the header, there are three order cards:

- Order 1:** Date [redacted], View Details button.
- Order 2:** Date [redacted], View Details button.
- Order 3:** Date [redacted], View Details button. Below this card, there is additional text: 'Pharmacy Name-pharmacy1', 'Address-Address', and 'contact number'.

A decorative illustration of various medicine bottles and pills is located on the right side of the page. At the bottom, there is a footer bar with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## 6.4 Doctor Interfaces

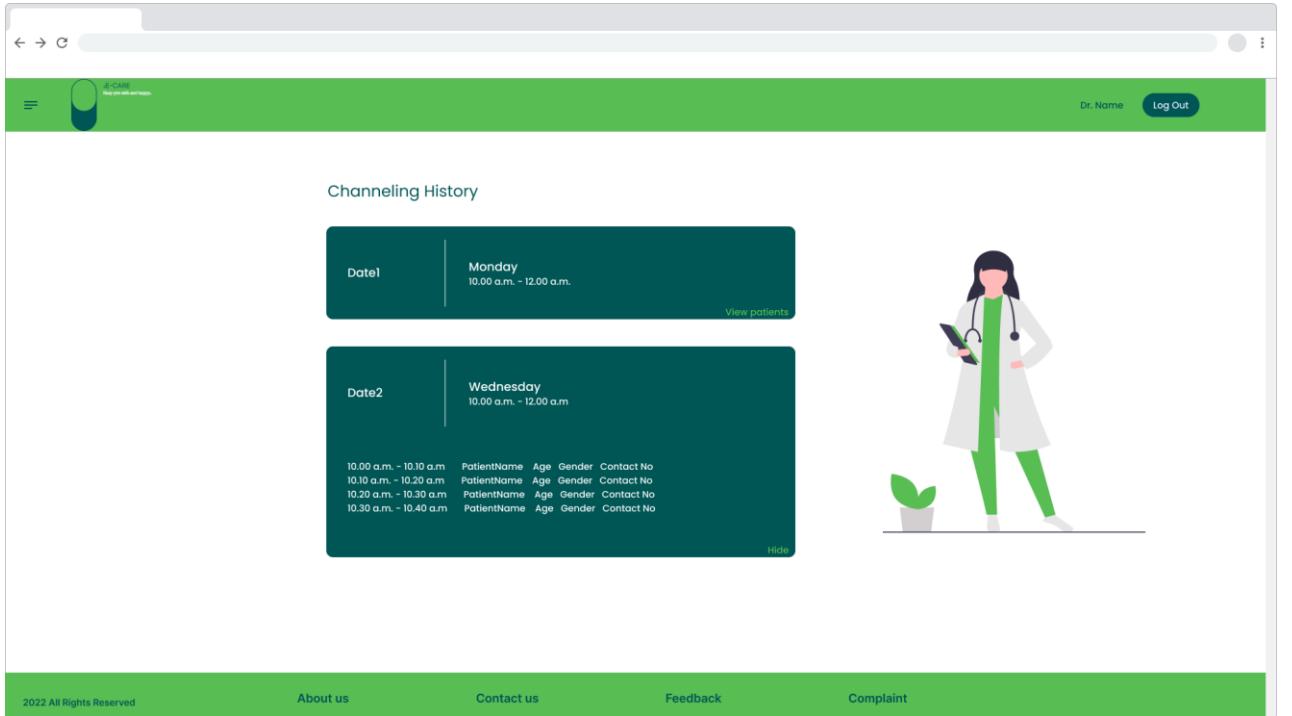

### Doctor home/Appointments

The screenshot shows the 'Appointments' section of the doctor's dashboard. It displays two time slots: 'Monday' from 10:00 a.m. to 12:00 a.m. and 'Wednesday' from 10:00 a.m. to 12:00 a.m. Each slot has a 'View patients' button. Below the slots, there is a table for each day showing patient details: PatientName, Age, Gender, and Contact No. The table for Monday lists four patients, and the table for Wednesday lists five patients. A sidebar on the left includes links for 'Appointments', 'Channelling History', and 'Change Available Timeslots'. A doctor character icon is on the right.

Date	Day	Time	PatientName	Age	Gender	Contact No
Monday	Monday	10:00 a.m. - 12:00 a.m.	PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No
Wednesday	Wednesday	10:00 a.m. - 12:00 a.m.	PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No

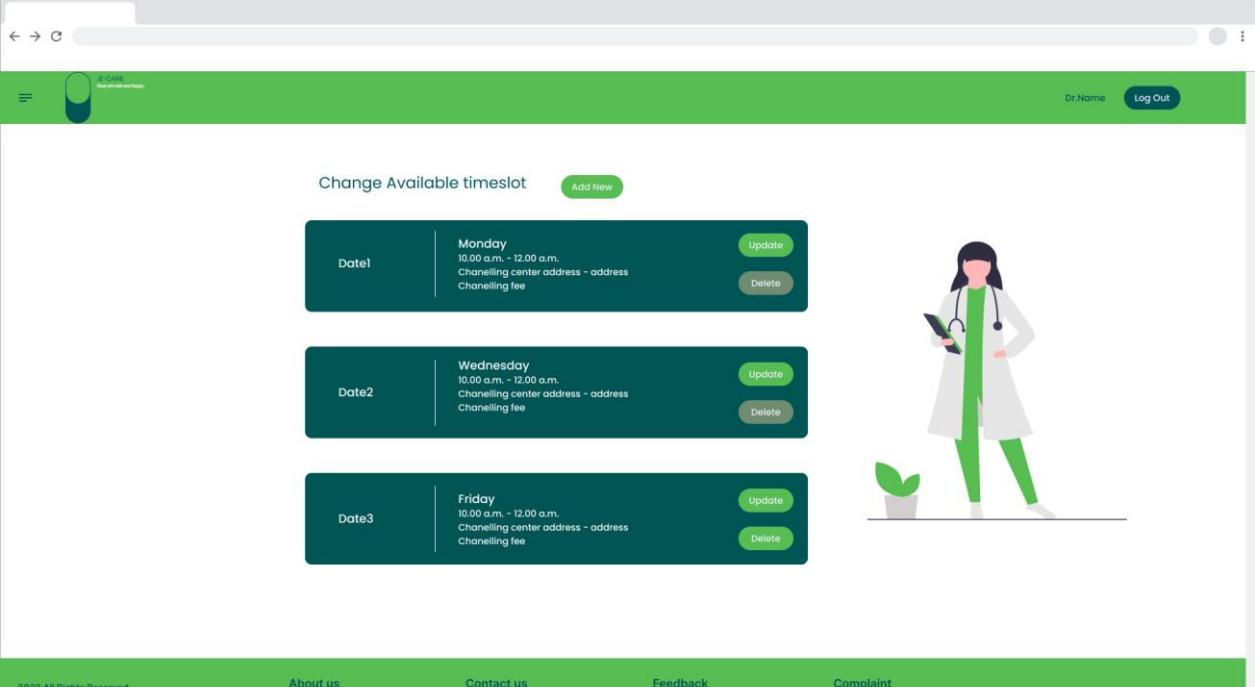

### Doctor channeling history

The screenshot shows the 'Channeling History' section of the doctor's dashboard. It displays two time slots: 'Monday' from 10:00 a.m. to 12:00 a.m. and 'Wednesday' from 10:00 a.m. to 12:00 a.m. Each slot has a 'View patients' button. Below the slots, there is a table for each day showing patient details: PatientName, Age, Gender, and Contact No. The table for Monday lists four patients, and the table for Wednesday lists five patients. A sidebar on the left includes links for 'Appointments', 'Channelling History', and 'Change Available Timeslots'. A doctor character icon is on the right.

Date	Day	Time	PatientName	Age	Gender	Contact No
Monday	Monday	10:00 a.m. - 12:00 a.m.	PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No
			PatientName	Age	Gender	Contact No

## 6.5 Counsellor Interfaces

### Counsellor home/Appointments

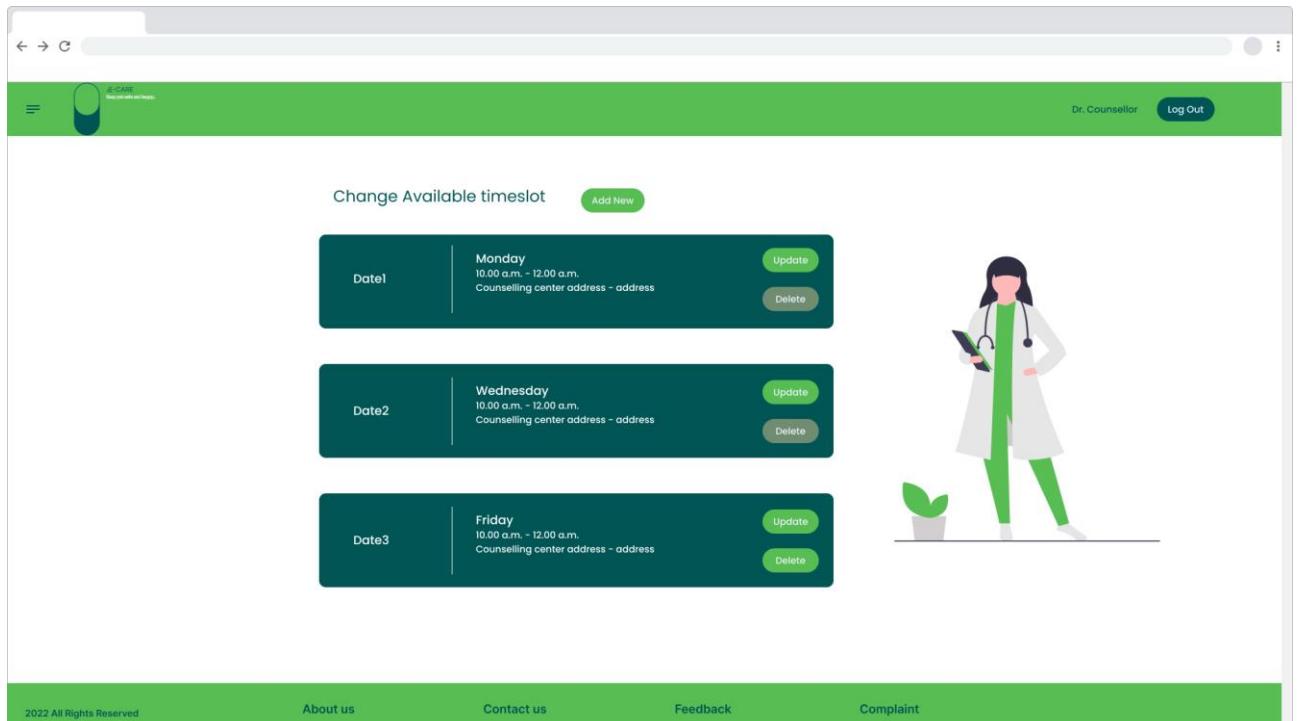

The screenshot shows the 'Counselling Appointments' section of the E-CARE platform. On the left, a sidebar menu includes 'Counselling Appointments', 'Counselling History', 'Available timeslots', 'Session', and 'Change Session details'. The main area displays three time slots: Monday (01.11.2022), Wednesday (03.11.2022), and Friday (05.11.2022). Each slot shows a time range (e.g., 10:00 a.m. - 12:00 a.m.) and the address of the counselling center. A 'View patients' button is present in each slot. To the right, there is a cartoon illustration of a female doctor in a white coat and green pants holding a clipboard. The bottom navigation bar includes links for 'About us', 'Contact us', 'Feedback', and 'Complaint'.

### Counsellor counselling history

The screenshot shows the 'Counselling History' section of the E-CARE platform. The layout is identical to the 'Appointments' section, with a sidebar menu and a main area displaying three time slots: Monday (Date1), Wednesday (Date2), and Friday (Date3). Each slot shows a time range and the address of the counselling center. A 'View patients' button is present in each slot. To the right, there is a cartoon illustration of a female doctor in a white coat and green pants holding a clipboard. The bottom navigation bar includes links for 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## Nutritionist change session details

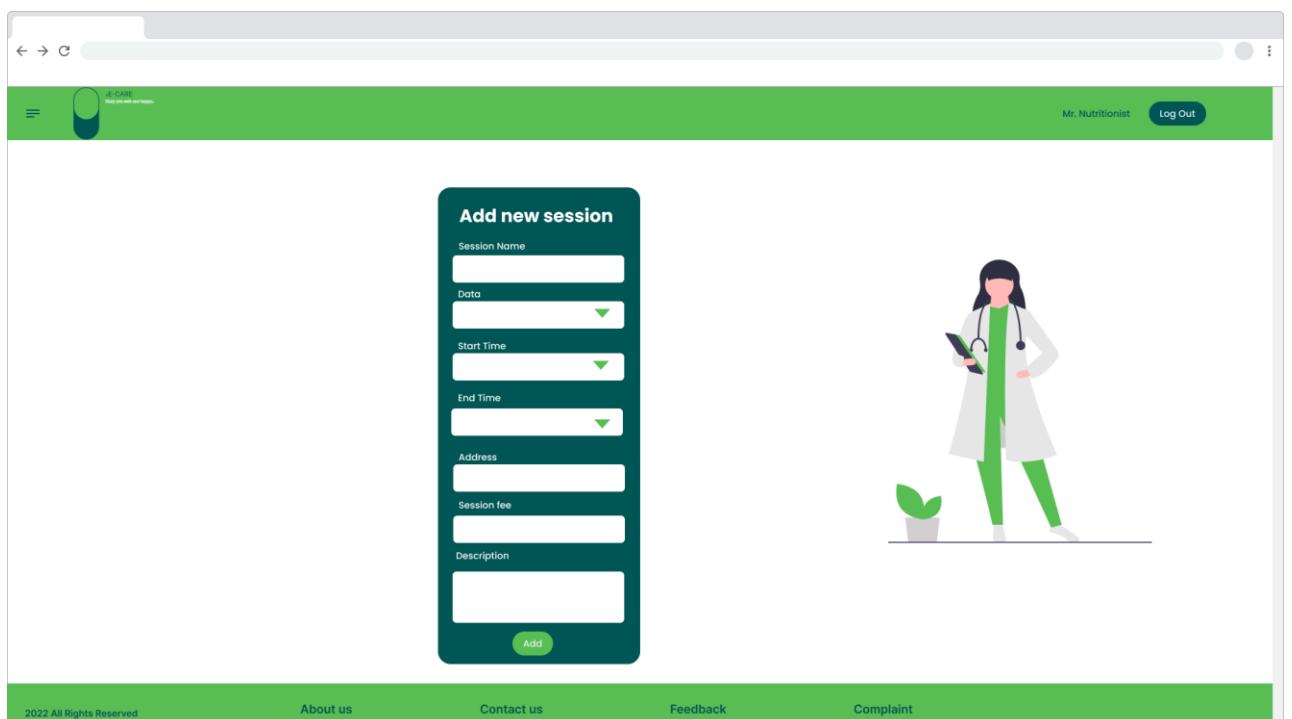

The screenshot shows the 'Change Session Details' section of the E-CARE platform. On the left, a sidebar menu includes 'Home', 'Diet plan request', 'Issued diet plans', 'Session', and 'Change Session details'. The main area displays three session entries:

Session Name	Date & Time	Description	Action
Session Name	2022.11.07 08.00 a.m. - 1.00 p.m. address - address Session fee		Update Delete
Session Name2	2022.11.09 08.00 a.m. - 1.00 p.m. address - address Session fee		Update Delete
Session Name3	2022.11.11 08.00 a.m. - 1.00 p.m. address - address Session fee		Update Delete

A cartoon doctor character is standing on the right side of the page. At the bottom, there is a footer with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## Nutritionist add new session

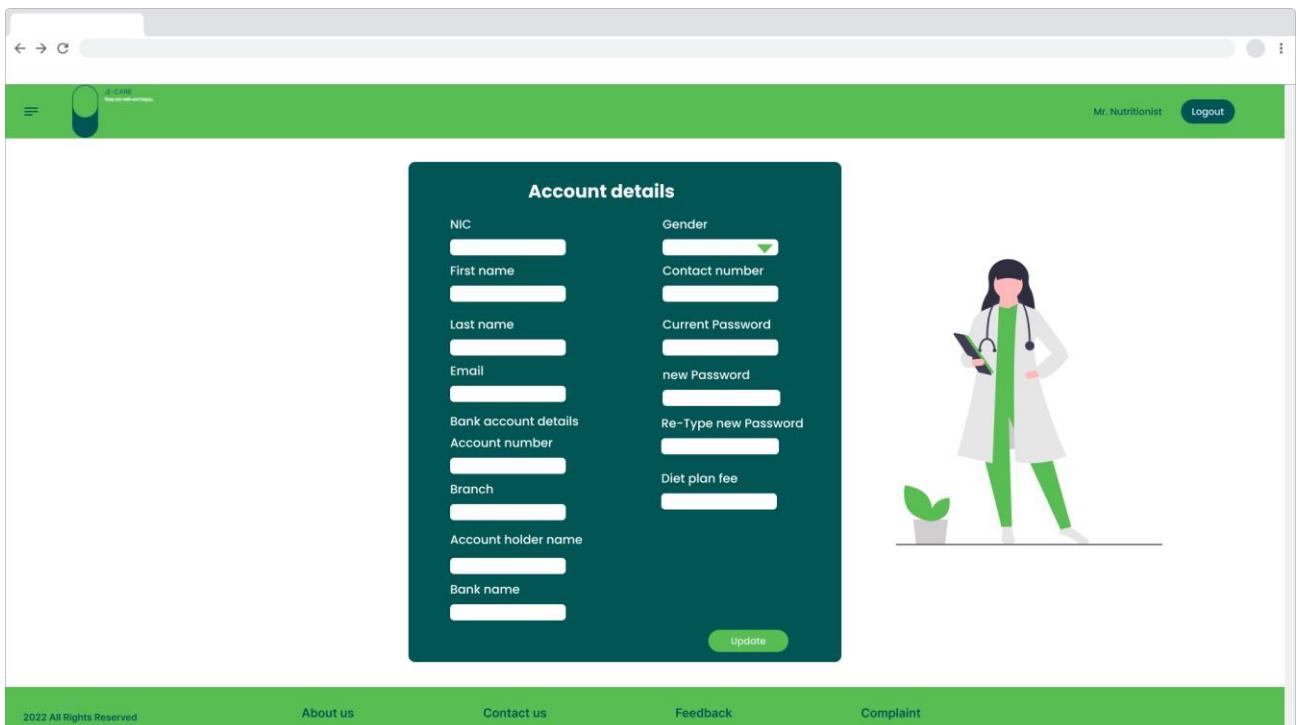

The screenshot shows the 'Add new session' form. The form fields are:

- Session Name: A dropdown menu currently showing 'Data'.
- Data: A dropdown menu.
- Start Time: A dropdown menu.
- End Time: A dropdown menu.
- Address: An input field.
- Session fee: An input field.
- Description: A text area.

A green 'Add' button is located at the bottom of the form. To the right of the form, there is a cartoon doctor character. At the bottom, there is a footer with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

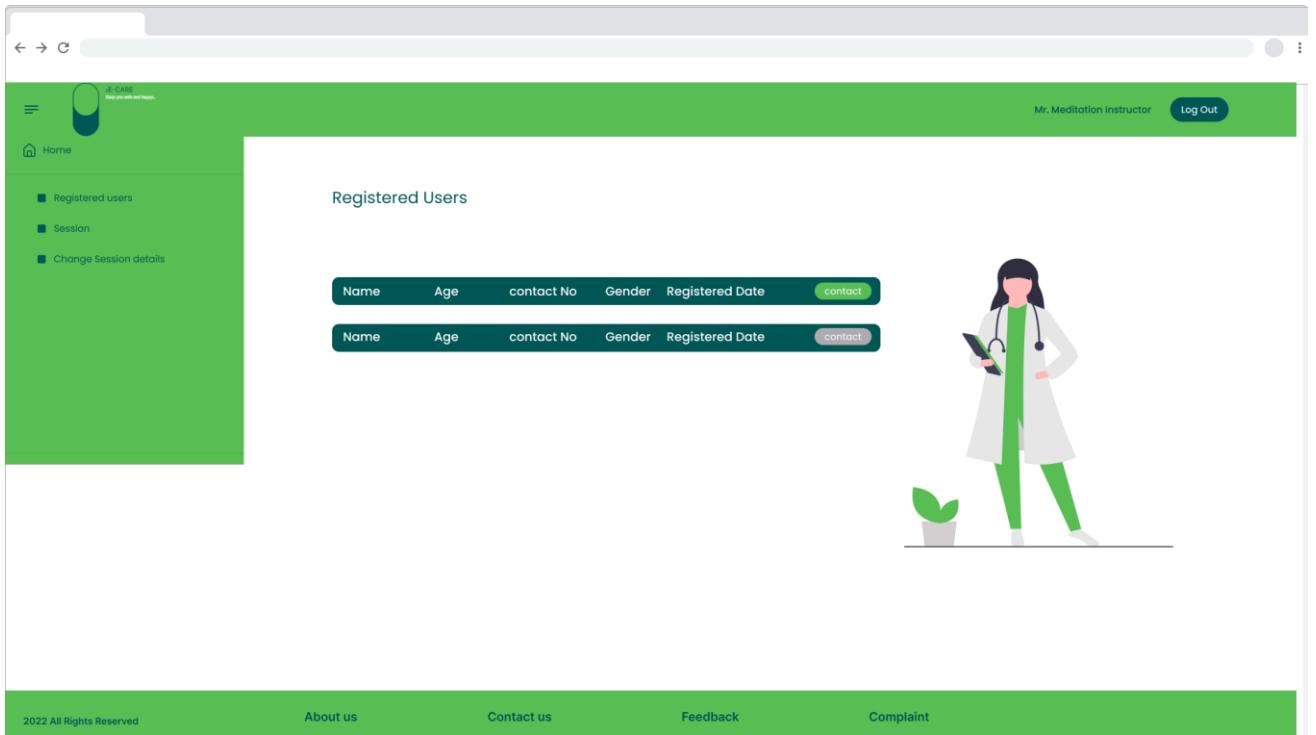

## Nutritionist account details

2022 All Rights Reserved      About us      Contact us      Feedback      Complaint

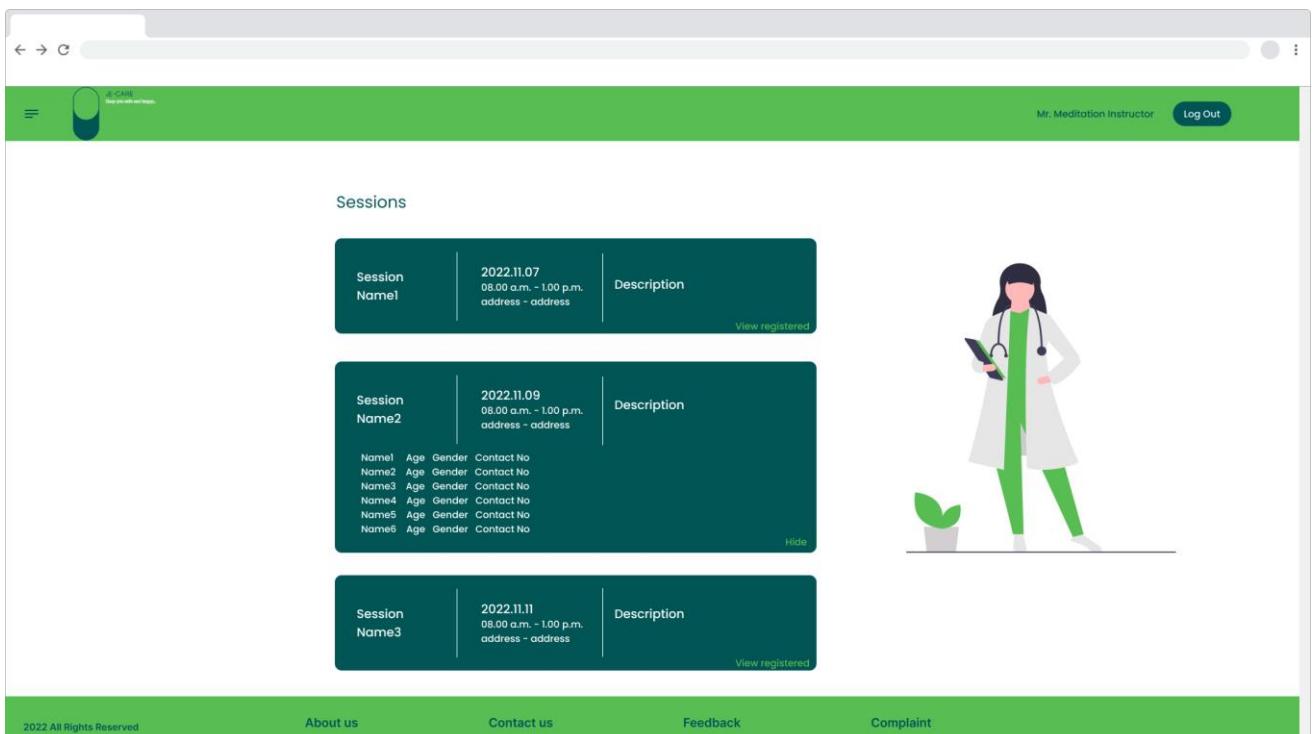

## 6.7 Meditation Instructor Interfaces

### Meditation Instructor home/Registered users

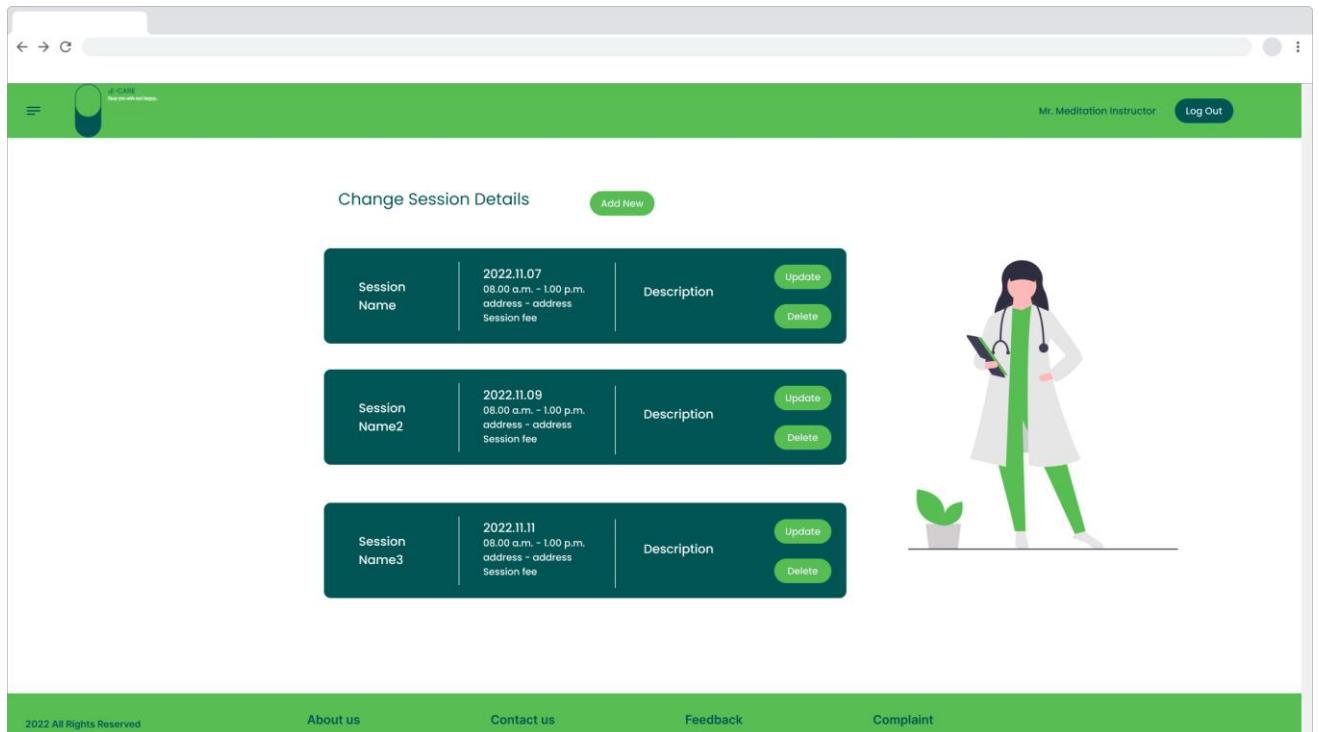

The screenshot shows the 'Registered Users' section of the E-CARE platform. On the left sidebar, there are three menu items: 'Registered users', 'Session', and 'Change Session details'. The main content area is titled 'Registered Users' and displays two rows of user information. Each row includes columns for Name, Age, contact No, Gender, Registered Date, and a 'contact' button. To the right of the table is a cartoon illustration of a female doctor in a green coat and stethoscope, holding a clipboard. At the bottom of the page, there is a footer bar with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

### Meditation Instructor session

The screenshot shows the 'Sessions' section of the E-CARE platform. The main content area displays three sessions in a grid format. Each session card includes a session name, date, time, address, and a 'Description' section. The first session card has a 'View registered' link at the bottom. The second session card has a 'Hide' link at the bottom. The third session card also has a 'View registered' link at the bottom. To the right of the session cards is a cartoon illustration of a female doctor in a green coat and stethoscope, holding a clipboard. At the bottom of the page, there is a footer bar with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## Meditation Instructor change session details

The screenshot shows a web-based application interface for managing session details. At the top, there's a green header bar with the E-CARE logo, the user name 'Mr. Meditation Instructor', and a 'Log Out' button. Below the header, the title 'Change Session Details' is displayed, along with a 'Add New' button.

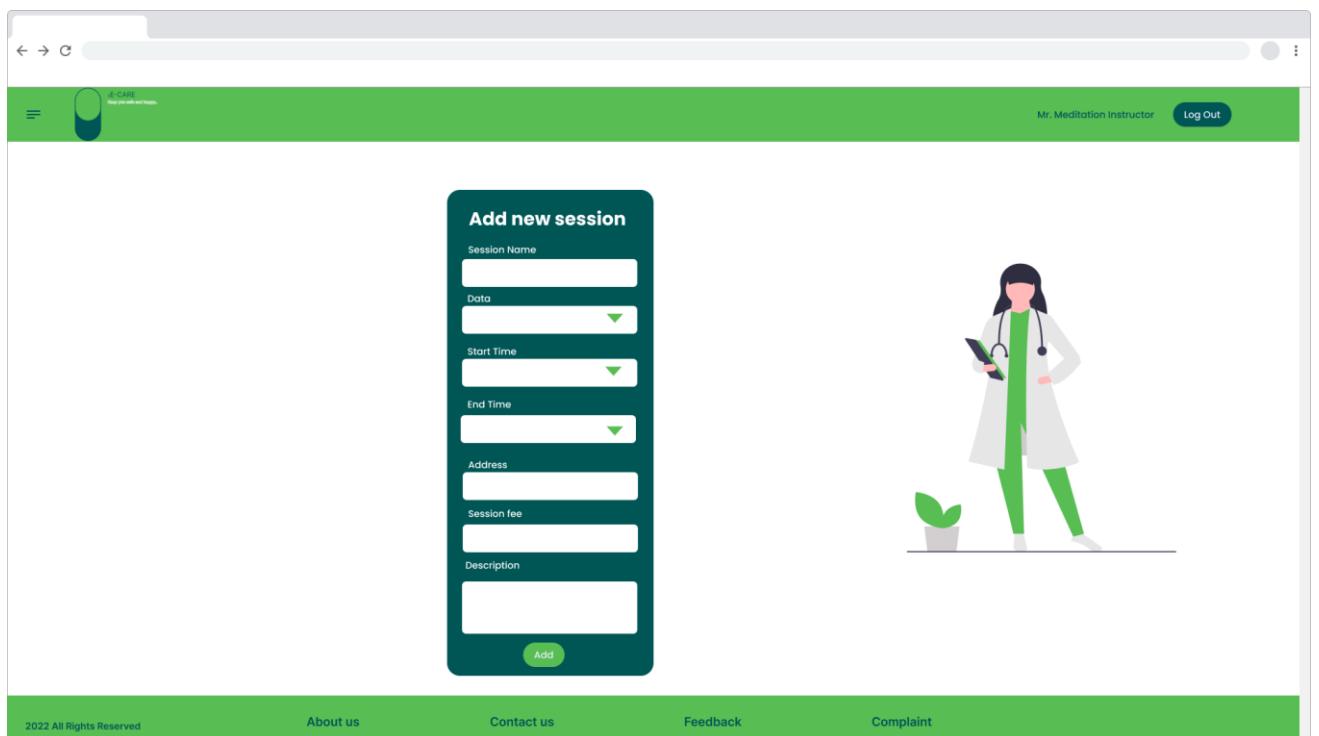

The main content area contains three session entries, each represented by a dark teal card:

- Session Name:** 2022.11.07  
08.00 a.m. - 1.00 p.m.  
address - address  
Session fee
- Session Name2:** 2022.11.09  
08.00 a.m. - 1.00 p.m.  
address - address  
Session fee
- Session Name3:** 2022.11.11  
08.00 a.m. - 1.00 p.m.  
address - address  
Session fee

Each card includes 'Description' and 'Update' and 'Delete' buttons. To the right of the cards is a cartoon illustration of a doctor standing next to a small potted plant.

At the bottom of the page is a green footer bar with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## Meditation Instructor add new session

The screenshot shows a web-based application interface for adding a new session. At the top, there's a green header bar with the E-CARE logo, the user name 'Mr. Meditation Instructor', and a 'Log Out' button. Below the header, the title 'Add new session' is displayed.

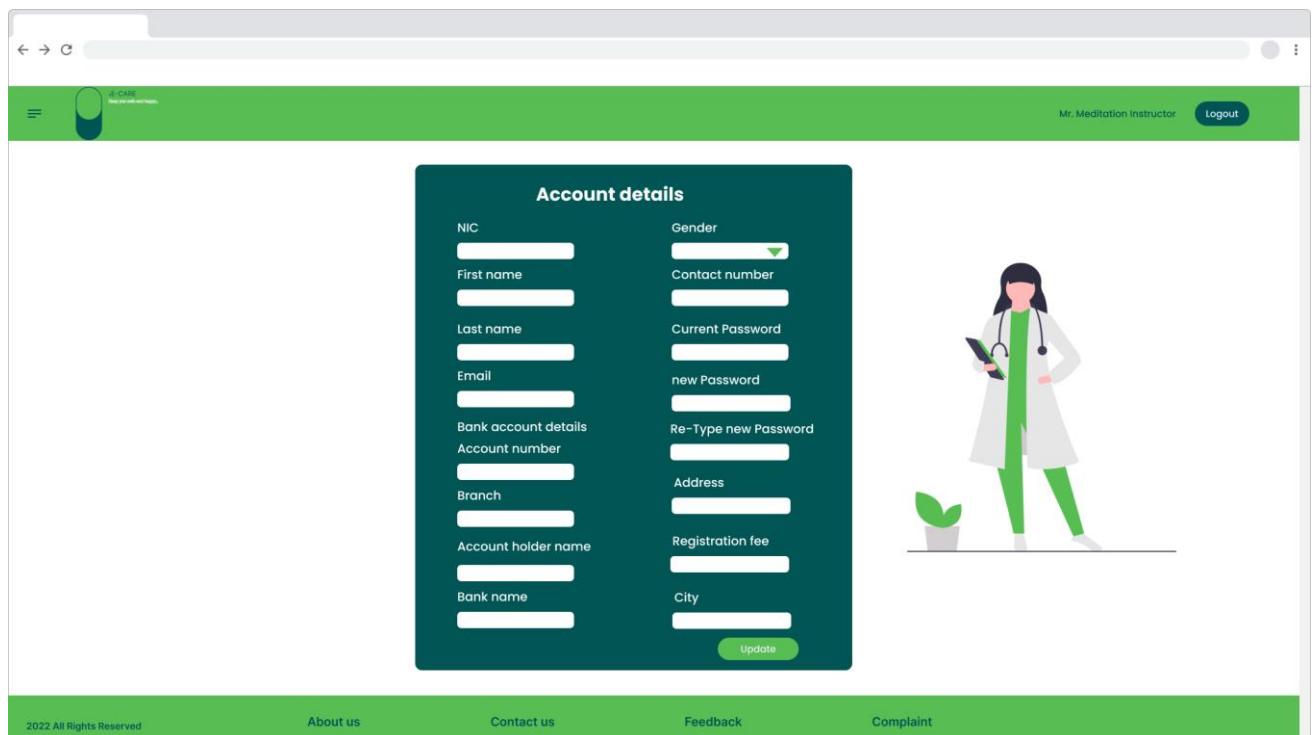

The main content area features a form titled 'Add new session' with the following fields:

- Session Name (input field)
- Date (dropdown menu)
- Start Time (dropdown menu)
- End Time (dropdown menu)
- Address (input field)
- Session fee (input field)
- Description (input field)

At the bottom of the form is a blue 'Add' button. To the right of the form is a cartoon illustration of a doctor standing next to a small potted plant.

At the bottom of the page is a green footer bar with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## Meditation Instructor account details

The screenshot shows a web browser window with a green header bar. On the left of the header is a logo with a stylized 'B' and the text 'BE-CARE Keep your life and happy.'. On the right, it says 'Mr. Meditation Instructor' and has a 'Logout' button. Below the header is a large central form titled 'Account details'. The form contains several input fields grouped into two columns. The left column includes fields for NIC, First name, Last name, Email, and Bank account details (Account number, Branch, Account holder name, and Bank name). The right column includes fields for Gender, Contact number, Current Password, new Password, Re-Type new Password, Address, Registration fee, and City. At the bottom right of the form is a green 'Update' button. To the right of the form, there is a cartoon illustration of a female doctor in a white coat and green pants, holding a clipboard and a stethoscope, standing next to a small potted plant. At the very bottom of the page is a green footer bar with links: '2022 All Rights Reserved', 'About us', 'Contact us', 'Feedback', and 'Complaint'.

## 6.8 Pharmacist Interfaces

## **Pharmacist home/orders details**

The screenshot shows a web application interface for managing prescriptions. The top navigation bar includes a back arrow, forward arrow, and search icon. On the right side of the header are the user's name, "Mr.Pharmacist", and a "Log Out" button. The main content area has a green header bar with the title "Orders". Below this, there are three rows of prescription details, each enclosed in a dark teal box. Each row contains fields for "Name", "contact No", and "Ordered Date", followed by a "Download Prescription" button, an "Accept" button, a "Reject" button, and a "View More" link. The third row also includes an "Address" field and a "Hide" button at the bottom right.

## Pharmacist selling history

The screenshot shows a web-based application interface for pharmacists. At the top right, there is a green header bar with the text "Mr.Pharmacist" and a "Log Out" button. On the left, a sidebar menu includes "Home" and "Selling Details". The main content area is titled "Selling Details" and displays three rows of data, each with columns for "Name", "Contact number", and "Date", followed by a "View More" link. Below this, there is a section for "Address" with two buttons: "Download Prescription" and "Download Pharmacist note". At the bottom of the page, there is a footer bar with links for "2022 All Rights Reserved", "About us", "Contact us", "Feedback", and "Complaint".

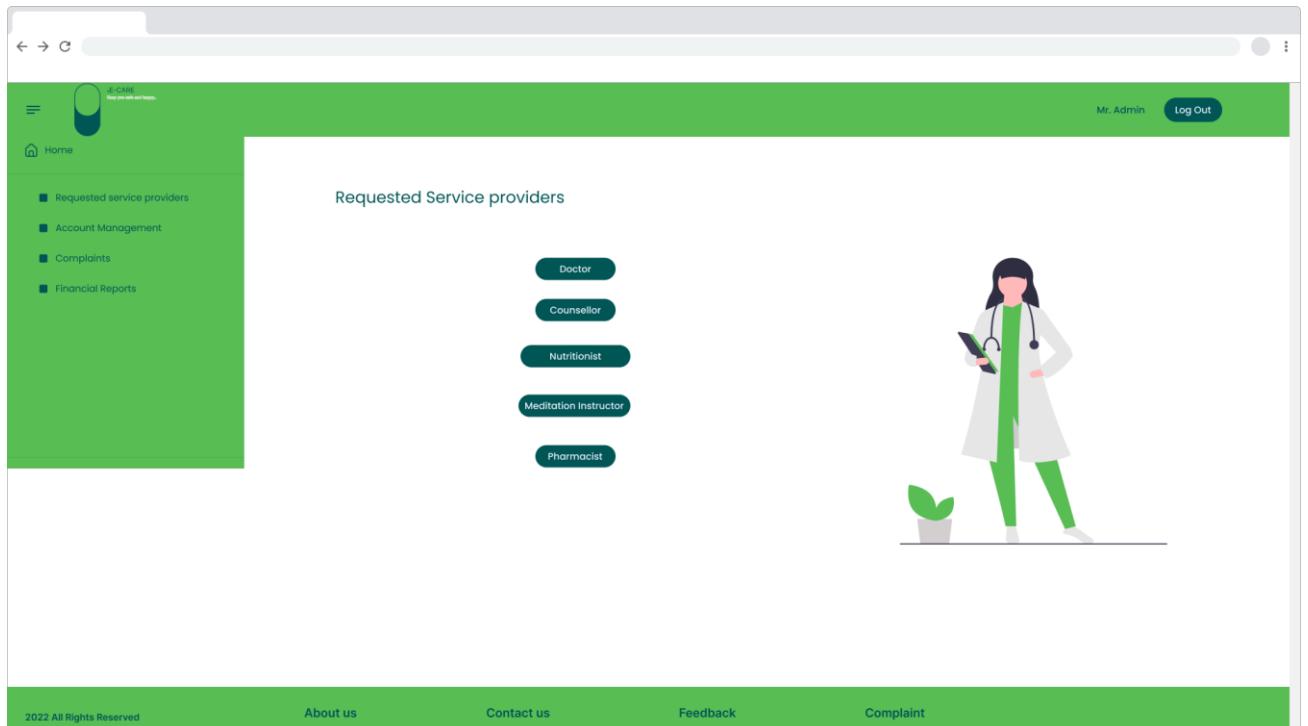

## Pharmacist account details

The screenshot shows a web-based application interface for pharmacists. At the top right, there is a green header bar with the text "Mr.Pharmacist" and a "Log out" button. The main content area is titled "Account details" and contains a form with various input fields. The fields include "NIC", "First name", "Last name", "Email", "Bank account details" (with sub-fields for "Account number", "Branch", "Account holder name", and "Bank name"), "Gender", "Contact number", "Current Password", "new Password", "Re-Type new Password", "Address", "Pharmacy Name", and "City". To the right of the form, there is an illustration of a female doctor in a white coat and stethoscope, holding a smartphone. At the bottom of the page, there is a footer bar with links for "2022 All Rights Reserved", "About us", "Contact us", "Feedback", and "Complaint".

## Doctor Account Management

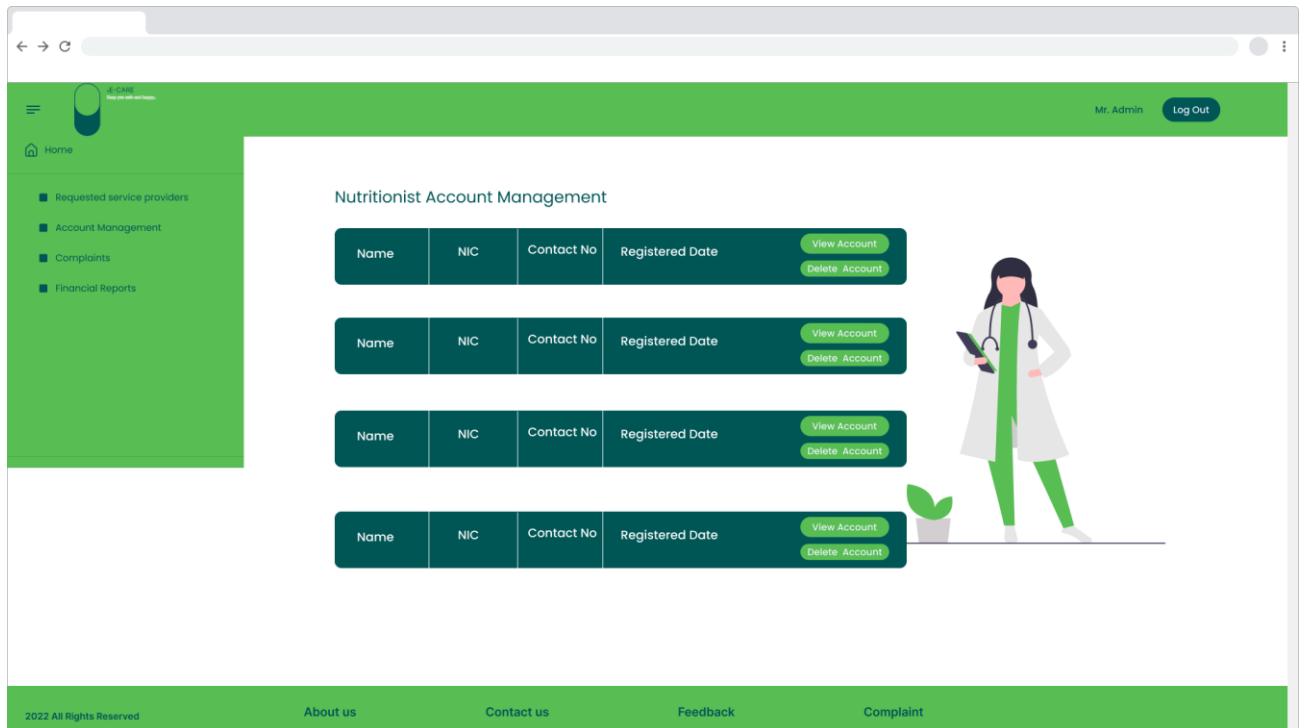

The screenshot shows the 'Doctor Account Management' section of the E-CARE platform. On the left, a sidebar menu includes 'Home', 'Requested service providers', 'Account Management' (selected), 'Complaints', and 'Financial Reports'. The main area displays four account management cards, each with columns for Name, NIC, Contact No, and Registered Date, followed by 'View Account' and 'Delete Account' buttons. To the right is a cartoon doctor character holding a tablet. At the bottom, a green footer bar contains links for 'About us', 'Contact us', 'Feedback', and 'Complaint', along with the copyright notice '2022 All Rights Reserved'.

## Counsellor Account Management

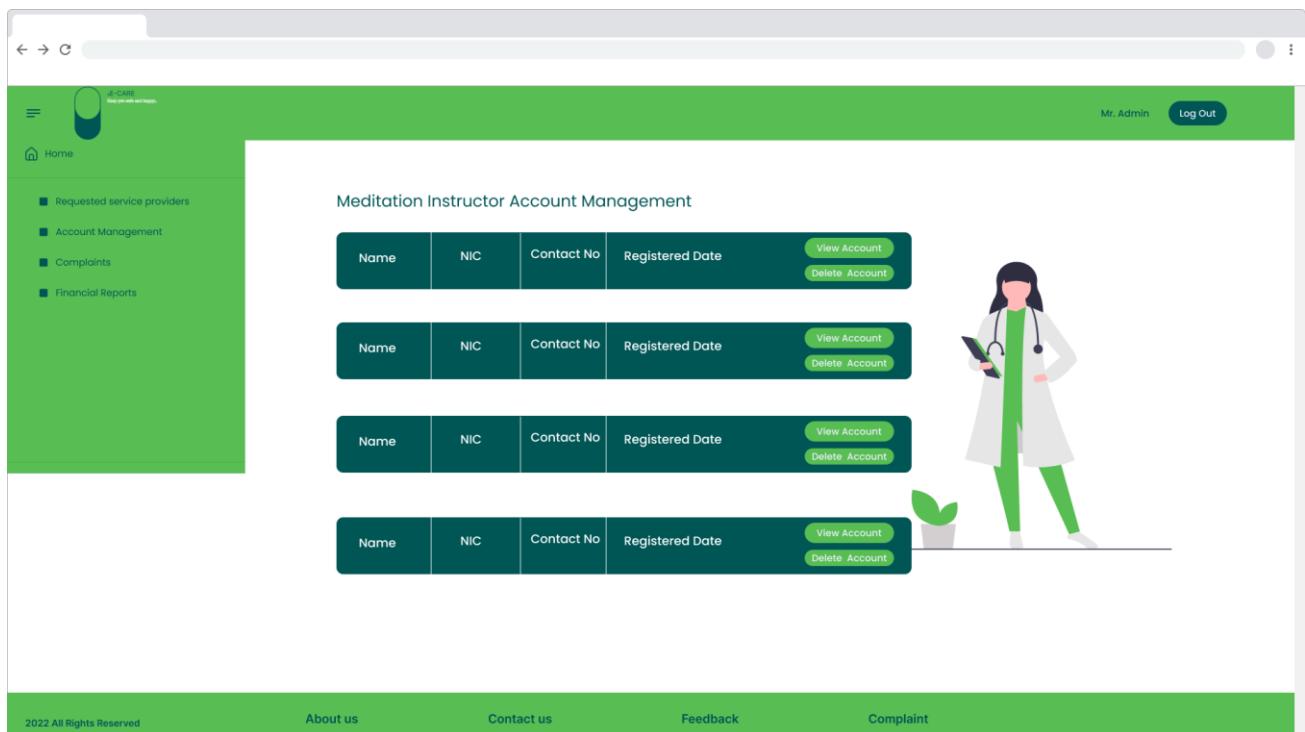

The screenshot shows the 'Counsellor Account Management' section of the E-CARE platform. The layout is identical to the Doctor's account management, featuring a sidebar with 'Home', 'Requested service providers', 'Account Management' (selected), 'Complaints', and 'Financial Reports'. The main area shows four account management cards for counsellors. A cartoon doctor character is positioned to the right. The green footer bar at the bottom includes 'About us', 'Contact us', 'Feedback', and 'Complaint' links, as well as the copyright notice '2022 All Rights Reserved'.

2 responses

Very Good

Computerised system is always better for the easy access to data specially for procurement (to predict the seasonal and fast-moving medicine, quantity wise for timely and accurate purchase) and drug distribution (less wastage, to consume before expiration date, accurate and efficient distribution according to unexpected shifts in demand)etc..processes. But some practical issues such as long powercuts and delays in updating the data base at the moment of dispensing can cause more difficulties than the benefits. But always e-methods are preferably better for more space saving and efficient storage of data.

**03. Do you have any specific features expected from this web application? Your idea,**

ඔබට මෙම වෙබ යොදමන් බලාපොරුන්තු වන වියෙකින විශේෂාංග නීතේද? ඔබ අදහස,

1 response

The procurement of medicine is a process that need efficiency and accuracy. Consumption during past two years is required to predict the demand for the next two years. Since the required quantity must be purchased from the manufacturers before at least one and a half years, a reliable data base is a must. If this could consider storage of consumption data islandwide that's a great advantage. Best of luck!

### Osu sal (Ayurvedic medicine)

**01. What do you think about the e-Pharmacy methods for osu sal/ ආයුර්වේද මූල්‍ය සඳහා රේ-ඡාමසි කුම ගැන ඔබ සිනන්නේ කුමක්ද?**

22 responses

This method is most popular method and there are so many western medical centers in our area.

පුලුව් බෙජේක් ලබාගත හැකිවිම

එහි සාර්ථකත්වය නිසා

best results

Easy access and availability of medications

More satisfied than Ayurvedic

Because, I'm biomedical science degree holder.

Western medicine seems to have the results a lot more faster than Ayurvedic medicine.

Its well organized than ayurvedic clinics

Most visiting the western doctors

Availability is higher than Ayurvedic

If I wanna channel a specialist there are a lot of them in western medical field and most of them trusted and popular. I hesitate to follow to ayurvedic methods.

Consistency and availability of the western medicine and services.

More reliable

More realiable

සිංහල බෙජේක් වල (කල්ක , අරිශේ) රික කාලයක් භාවිත කිරීමේදී විවිධ සංකුලකා ඇත්තිවිම නිසා...

There is no particular reason.The western system is the most used.I think I have adapted to the western system because of its quick results and ease of treatment.But I believe in the local Ayurvedic system and do not underestimate the local medicine system at all.Also local medicine when necessary working to use.

More realiable

සිංහල බෙහෙන් වල (කල්ක , අරිෂේ) වික කාලයක් භාවිත කිරීමේදී විවිධ සංකුලනා ඇත්තේම නිසා...

There is no particular reason.The western system is the most used.I think I have adapted to the western system because of its quick results and ease of treatment.But I believe in the local Ayurvedic system and do not underestimate the local medicine system at all.Also local medicine when necessary working to use.

Easy to find

We've been using the western medicine from the birth and its productive for us.

Easy to get

Easy to reach and available everywhere

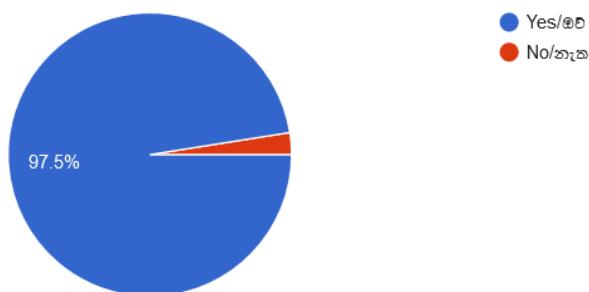

I think it's more efficient and reliable than ayurvedic medicine
